DON'T SUFFER WITH NEURALGIA

When those sharp pains go shooting through your head, when your skull seems as if it would split, just rub a little Musterole on your temples and neck. It draws out the inflammation, soothes away the pain, usually giving quick relief.

Musterole is a clean, white ointment, made with oil of mustard. Better than a mustard plaster and does not blister.

Many doctors and nurses frankly recommend Musterole for sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bite—colds of the chest (it often prevents pneumonia). It is always dependable.

PERRY RAILROAD QUILTS BUSINESS

Susquehanna and Western to Stop Service Between Duncannon and New Bloomfield

New Bloomfield, Pa., March 14.—The historic old Susquehanna River and Western Railroad will go out of existence on April 1. On that day trains between Duncannon and New Bloomfield, a distance of ten miles, will discontinue running and at that time will start on the extension of the narrow gauge Newport and Sherman's Valley Railroad, now reaching to New Bloomfield, from this latter town to Duncannon.

The old Perry county railroad, which later became the Susquehanna River and Western Railroad, one time extended to Landisburg and had a track from that place to Newport. When the company passed under the control of the syndicate headed by David Grigg, of Newport, which also controlled the Newport and Sherman's Valley Railroad, some ten years ago, work was soon started on tearing out the tracks between Newport and Duncannon.

Early this year notices were issued that the trackage over the Susquehanna River and Western, between New Bloomfield and New Bloomfield Junction, would be discontinued. The Perry Railroad was laid into New Bloomfield and trains between New Germantown and Newport were switched in.

Information issued several days ago was to the effect that it had been planned to make the Newport and Sherman's Valley Railroad a through gauge throughout the line, between Newport and New Germantown, that the rails had even been ordered, but that they had been commandeered by the government for its private business and for Atlantic at the commencement of the war.

NEW PLANT FOR STORING APPLES

\$60,000 Will Be Expended in Erection of Big Building at Gettysburg

Gettysburg, Pa., March 14.—Work will soon be started on the construction of a new apple storage plant here to cost \$60,000. There is only one plant of this kind in the county, one of the greatest apple producing counties in the country, and that is the one at Biglerville. That establishment is entirely inadequate to meet the demands of the growers and as a result many of the apples are sent to the cities for storage or sold before they would otherwise be. To help the Adams county grower the new company was formed some time ago and a modern storage house, 100 by 140 feet, will be built of brick and reinforced concrete, with a capacity of forty-five thousand barrels. It is planned to have the building ready for use by the time the season's crop is harvested for storage. The necessary refrigeration will be gotten from the ice and storage company, near whose plant the new structure will be built.
