The sea-planes are substantially similar to the British flying boats and are equipped with two Liberty motors, which provide approximately 700-horsepower to drive the machine. This is understood to be much in ex-cess of the power used in similar British craft, and their performance is expected to be proportionately bet-ter. **TO COMBAT HUN**

### **TWENTY-FIVE** YEARS' EXPERIENCE

TEARS EATENIENCE To the person who finds it necessary to go to an opto-metrist, the question natur-ally arises, "Who is the best?" During the twenty-five years that I have practiced Op-tometry in Harrisburg I have itted over twenty thousand pairs of glasses. In every in-stance I have made a thorough scientific examination and fur-nished glasses that have proved to be right, and the patient received the very best service. My prices have always been reasonable, and my methods are strictly in accordance with the ethics of the profession. I am a graduate of a leading Optical College and have tak-en a post graduate course in Dytometry and refraction. I have also had experience as an expert mechanic in several latze factories where optical I make all and, fit the
