Troubled Five Years With Nervous Indigestion

"I was troubled with nervous indigestion for five or six years. I tried almost everything and made two or three trips to the city of Nashville and had specialists treat me; but I found that nothing did me any good until I tried Bliss Native Herbs. I was so I could not eat or sleep, but since using your medicine I have had no further trouble and enjoy good health."

tion for the neutral diplomat and his associates. The four under arrest in New York gave their names as Madame Desolina Davidovitch Storch, Madame Elizabeth Charlotte Nix, Baron Henri de Belville and Count Robert de Clairmont.

It is now disclosed that what were spying to lay against any of the quartet, but that the complicated tangle of personal relations with men high in official and social circles makes it expedient to deport them. The case has been discussed fully where any of the four got their money, although it is now said that one of the women had some wealth of her own.

More Warm Clothing Is Needed For Relief of French and Belgians

Suffering among the refugees in Belgium and Northern France is so acute that a further appeal for clothing has been issued by the National Red Cross. The Harrisburg Chapter of the American Red Cross has received a copy of the appeal, which asks for an additional 5,000 tons of clothing for the sufferers.

The commission in charge of the relief for the Belgians and French, recites many tales of the dire need. It is said that even the wealthiest classes are now suffering. Clothing has become so scarce that wearing apparel is made from four bars, and mattresses have been filled with leaves. The German Government found it necessary to cut down poplar, elm and other trees. They also took the garments, shoes and bedcoverings from the various stores, and it is almost impossible to purchase any wearing apparel, officials of the commission say.

Plans for the taking of over 4,000 samples of foods and drinks of every kind used in the state are being worked out by Dairy and Food Commissioner James Foust, whose agents are about ready to start their spring drive.

The agents will send their samples direct to chemists and in cases of articles which must be analyzed at once, no time will be lost in handling them. The plans for immediate determinations have been made on an equal basis and the prosecutions will follow, where warranted with little delay.

State Camps to Open—The State Forestry Department has located the sites of 15 camps which are to be centers of planting which are to be centers of the state's big reforestation scheme near State Run, Lycoming county; Laurelton, Union county; Blackwells, Tioga county; Austin and Crostons, Potter county. The planting work will start about April 10, and continue six weeks in which time it is hoped to plant from four to five million young trees which have been raised in state nurseries. Three hundred men, seventy-five of whom will come from the college, will be employed. The department has received applications for a million and a half forest seedlings, of which 100,000 have been asked by the city of Altoona. The total is not much less than asked last year in the state and is taken to mean that labor to plant is in sight. The first shipments will be started in a few days, providing weather remains good.

B. and Manufacturing Company, Philadelphia, for compensation because of asthma alleged to have been contracted while acting as a fireman and from inhalation of coal dust. Siglin, of Scranton, against Armour & Co., also of Scranton. The opinion of the board had been taken to the court of common pleas of Lackawanna county and then appealed to the Supreme Court. Call "Sab Cat" and "Wooden Shoe" to Aid Rebel Army Against U.S.

Chicago, March 21.—Details of how the "sab cat" and the "wooden shoe" were being marshaled by a vast "rebel army" in opposition to the United States Government and the war, will, it is said, be revealed at the coming trial of members of the I. W. W. under indictment for conspiracy and disloyalty.

"Sab cat" and "wooden shoe" are I. W. W. slang for sabotage. Federal attorneys were busy to-day examining specimens of I. W. W. literature seized by the Government.

Following are some extracts from Solidarity, an I. W. W. publication, which will, it is said, be used as evidence at the trial: "The rebel who does not put his pet cat to work these days is guilty of criminal negligence."

"We need in Rockford at the present time about 4,000 rebels to go on the job at the Cantonment de Yellowstone. Come on, you rebels."

"An ounce of sabotage is worth a ton of legislation." "The only logical footwear for a conscripted army is wooden shoes."
