

DEMAND MADE FOR 'IRON FIST' TO CURB I. W. W.

Northwest May Deal Harshly With Agitators, Senate Is Told

Washington, March 22.—Warnings that the people of the Pacific Northwest, tired of I. W. W. activities, might take the law into their own hands to suppress traitorous conduct; charges that the government itself had "coddled" the leaders, and predictions that sabotage and other hampering action to embarrass the government's aircraft program are likely to break out in the spring and summer, featured the Senate debate yesterday on the administration's bill to empower the government to commandeer timber and conduct logging operations.

The debate flared up so suddenly and lasted so long that time allotted

for considering the bill was used up, and Senator Chamberlain, chairman of the Military Committee, let it go over for action later.

Sensors were not sparing in their declarations that the government should act swiftly and drastically to meet what they characterized as a menace to the people. Senator Chamberlain particularly declared it might be necessary to send troops into the spruce forests to protect workers getting out the precious timbers for the airplanes.

"Not until men with guns are sent in can we get the necessary spruce," he said. "The I. W. W. will not allow men to work in the forests."

Senator Borah, of Idaho, declared the government could deal adequately with the I. W. W. without resort to force and by orderly lawful action.

Mississippi "Bone Dry" Law Is Finally Passed

Jackson, Miss., March 22.—The lower house of the Mississippi Legislature has passed the "bone dry" prohibition bill. The bill already has passed the Senate and now goes to the Governor for signature.

The measure repeals the present prohibition laws with regard to the receipt of a certain quantity of liquor per month.

An Eight-Club Circuit For Munition Makers; "Pi" Way Is Organizer

"Pi" Way, the ex-Giant pitcher and noted Yale athlete is now employed in the Welfare Department, United States of America Explosives Plant "C" Nitro, West Virginia. When in full operation, 25,000 men will be engaged in the construction of the plant, out of which, Way will organize a league composed of eight ball teams and a regular schedule of games will be played. There are a number of men employed at Nitro, in various capacities who have played big league ball. Way will develop many of the stars now in embryo and it is expected that the championship team will render a fair account with the American and National League teams that will visit Nitro from time to time to give exhibition games.

The ball park will be complete in every detail, having a seating capacity of 10,000, together with two club-houses thoroughly equipped. There will be many other athletic facilities. Officials will be selected and the employees are promised very interesting and highly exciting sporting entertainments.

CAPITAL CALM AS FIRST NEWS COMES

(Continued from First Page.)

really is the forerunner of some other movement.

There is a marked tendency among American Army officers here not to accept the present movement as the real offensive until it is more fully demonstrated.

Suspicious of Object

Despite an announcement from London that the German way machine is attacking on a wider front than ever before attempted in the west, there is a distinct feeling here that the move may not prove more than a gigantic demonstration to overawe European neutrals or cloak some other purpose.

American observers think the military situation in France is against the probability of a real German offensive at this time. The views prevail that Germany now would hardly stake the issue of the war on a desperate drive against the all but impregnable allied line in the west.

Reports from Holland that Germany has taken the issue of the war on a desperate drive against the all but impregnable allied line in the west. Reports from Holland that Germany has taken the issue of the war on a desperate drive against the all but impregnable allied line in the west.

TO HIKE IN COUNTRY

Members of the Harrisburg Natural History Society will leave Market Square at 1 o'clock to-morrow afternoon for Hummelstown, where they will start on a hike in the surrounding country. The purpose of the outing is to make a study of birds of the county.

Use McNeil's Cold Tablets. — Adv.

MRS. BOYD TO SPEAK

The fourth of a series of lectures on "Sidelights on Genesis" will be given by Mrs. John Y. Boyd at the Boyd Memorial Building this evening at 8 o'clock. The subject will be "Abraham, Or the Spirit of Faith."

DR. GREGG TO LEAD

Rev. Harris Gregg, well-known Biblical authority and lecturer, will conduct the annual Bible institute in Fahnstock Hall, it was announced to-day. Dr. Gregg is a widely-known minister. The institute is under the auspices of the Central Y. M. C. A.

STORE OPENS 8:30 A. M.—CLOSES SATURDAY AT 9:00 P. M.

For Constipation! Physic Purge or Laxative?

Everyone now and then becomes constipated, and millions are chronically in that condition. The perplexing question arises—what to use.

Purgatives and cathartics are drastic and usually cause a reaction. Saline waters are rapid in action but do no more than empty the bowels.

Just as certain an effect, and certainly a much more pleasant one, can be obtained by the use of a combination of simple laxative herbs with pepsin sold by druggists under the name of Dr. Caldwell's Syrup Pepsin. It acts gently, without griping. It is an especially ideal medicine for children, women, old people and others who find purges too powerful.

Only a teaspoonful is required; and by morning the movement is free and complete. A bottle in the house is insurance for the whole family against constipation, indigestion, headaches, flatulency and other digestive ills.

The druggist will refund your money if it fails to do as promised.

Dr. Caldwell's SYRUP PEPSIN
The Perfect Laxative

FREE SAMPLES—Dr. Caldwell's Syrup Pepsin is the largest selling liquid laxative in America. If you have never used it, send your address for a free trial bottle to Dr. W. B. Caldwell, 468 Washington St., Monticello, Ill. If you have babies in the family send for a copy of "The Care of the Baby."

May Run New Trolley Cars Here Under Own Power

The freight embargo will not interfere with the delivery here of the five new cars for the Harrisburg Trolley Company if all of the necessary permits can be gotten through Philadelphia. President Frank B. Messer, of the Trolley Company, has returned from Philadelphia where he went in an effort to have work hastened on the cars. He found that some gears and motors are needed to finish them. Under ordinary circumstances, cars are shipped here by freight and the motors are installed here. Now they have been gotten in touch with the Westinghouse Company, in Pittsburgh, and made a request that the motors be shipped to Philadelphia instead of this city. If the freight embargo still holds when the cars are completed, then they will be run here under their own power. They will be run from Philadelphia to Pottstown and then to Norristown, Reading, Ephrata, Lebanon, Hershey and Hummelstown. The new cars may be here within a month.

Spanish Liner Held Up by U-Boat and Forced Back Home

Cadiz, Spain, Thursday, March 21. The Spanish trans-Atlantic liner Montevideo, which sailed for New York Monday, was held up by a German submarine Tuesday and forced to return here. After firing a warning shot, the submarine came alongside the liner and made the captain promise not to use the wireless. The captain was then taken aboard the submarine while German sailors searched the Montevideo.

Confidence in Allies

Supreme confidence is expressed on every hand, however, in the allies' ability to arrest the Germans even should the attack now reported under way from La Fere to the Scarpe prove to be the great offensive. Members of the House Military Committee heard the first German details of yesterday's German attack as received by the War Department when they met to-day with the War Council under the new policy adopted by Acting Secretary Crowell, of taking Congress into the confidence of the government. The military authorities pointed out to the representatives that nothing had come from the fighting front as yet to indicate the scope of the German movement.

The committee members again were informed in detail of the progress made in all branches of American war preparations. They appear to be satisfied that every possible effort is being made by the War Department to hasten the war program. Members of the Senate Committee will meet the War Council again to-morrow. Arrangements for joint sessions have not been completed.

Developments in the fighting were awaited with a calmness born of the assurance that the British armies were braced for the blow and that the western line cannot be broken. It may be hot or crushed here and there on local sectors, but the Allies know only too well the fruitlessness of attempting a strategic break through the fixed posi-
