CHURCHES HONOR SOLDIER MEMBERS

Flags, Banners and Photographic Panel Unveiled With Ceremonies

Port Royal, Pa., March 27.—On Sunday the Port Royal and St. Paul Lutheran Churches of the Port Royal charge held special patriotic services in honor of their young men who have gone to war.

In the forenoon at Port Royal a large silk American flag, a service banner, containing eleven stars, each star representing a young man from this church in the service of his country, and a panel containing a photograph of each young man were presented to the congregation by the Bureau of Promise class of the Sunday school.

The American flag was presented by Miss Reba Selden. It was unveiled by Privates William G. Johnson, of Camp Dix, Wrightstown, N. J., and Benjamin F. Stong, of Camp Meade, Md., during which time the congregation sang "America." The service banner was presented and unveiled by Miss Sara Stimmell. The picture panel was presented and unveiled by Lloyd M. Groninger, Prof. G. C. Lyter, in behalf of the congregation, accepted the flags and picture panel and thanked the donors.

The service was made impressive by the unveiling of each star separately by father, mother, sister or brother of the young man represented. Then the Misses Martha Frankhouse and Mary Boyer sang "Keep the Home Fires Burning." The service was by the Rev. John B. Kinsley followed. He delivered an appropriate discourse, taking for his text Psalms 124, "In the name of God we will set up our banners," viz.: National Banner, Service Banner and Our Gospel Banner.

In the afternoon a similar service was held at St. Paul, when the Sunday school presented an American flag and a service banner, containing six stars, to the congregation. J. W. Kell, superintendent of the Sunday school, presented the flags and Judge William Swartz accepted them. Then followed the unveiling of the stars by members of the families. Large audiences attended the services at both places.

Flour Supply of Nation to Be Cut Down 50 Per Cent

Washington, March 27.—Curtailed wheat consumption to fifty per cent of normal, which the Food Administration has determined upon, will be effected through the Administration's control of licensed mills and distributors. Instead of thirty per cent of the country's output of flour being taken for export, it was explained yesterday, approximately fifty per cent, is being purchased by the Food Administration grain corporation, which in turn sells to the Allies, according to their actual needs. The remaining fifty per cent is available for domestic use, and is apportioned as equitably as possible on the basis of normal consumption.

DRINK HOT WATER AND RID JOINTS OF RHEUMATIC RUST Why rheumatism and lumbago sufferers should drink phosphated hot water each morning before breakfast

Just as coal, when it burns, leaves behind a certain amount of combustible material in the form of ashes, so the food and drink taken after day leaves in the alimentary canal a certain amount of indigestible material, which if not completely eliminated each day, becomes food for the millions of bacteria, which infest the bowels. From this mass of left-over waste material, toxins and ptomaine-like poisons, called uric acid, is formed and then sucked into the blood where it continues to circulate, collecting grain by grain in the joints of the body much like rust collects on the hinge as shown above.

Men and women who suffer from lumbago, rheumatism or sore, stiff aching joints should begin drinking phosphated hot water, not as a means to magic relief from pain, but to prevent more uric acid forming in the system. Before eating breakfast each morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. This will first neutralize and then wash out of the stomach, liver, kidneys and bowels the previous day's accumulation of toxins and poisons; thus, cleansing, sweetening, and freshening the entire alimentary canal, each morning, before putting more food into the stomach. A quarter pound of limestone phosphate costs only a few cents at the drug store, but is sufficient to make any rheumatic or lumbago sufferer an enthusiast on the morning inside each day. Millions of people keep their joints free from these rheumatic acids by practicing this daily internal sanitation. A glass of hot water with a teaspoonful of limestone phosphate, drunk before breakfast, is wonderfully invigorating; besides, it is an excellent health measure because it cleanses the alimentary organs of all the waste, gases and sour fermentations, making one look and feel clean, sweet and fresh all day. Those who try this for one week may find themselves free from sick headaches, constipation, lumbago, aches, slowness, nasty breath and stomach acidity.
