Advertisement: Penbrook Monumental Works Have Large Stock of Granite

B. F. Knupp, the Penbrook monumental maker, has a large supply of marble and granite on hand for the usual spring work in the making of markers and monuments. This material was ordered early and is now ready to be put on the market. Only the best grade of Barre granite and the finest grade of marble is used by Mr. Knupp in the orders he places.
For the past few years Mr. Knupp has been placing markers and monuments in all the cemeteries around Harrisburg and has been giving general good satisfaction. Many of the larger markers on many of the prominent plots in the different cemeteries.
Now is the time to place an order that has been delayed by the cold weather of the past winter. In doing so now it is possible to avoid a larger rush that is sure to come later in the season.

Advertisement: Big Business Demands Enlargement of Building

The big increase of business in the past few weeks has caused the Piker Artificial Limb Company at 1614 N. Sixth street to enlarge their quarters. They have now taken in the entire building at 1614 and 1614 N. Sixth street. The shop is in one part of the building and the office occupies the other part.
The Piker Artificial Limb Company are manufacturers of all kinds of artificial limbs, braces, and belts of all descriptions and trusses. Mr. Piker, the proprietor and manager, is an old hand in the business, having a large experience in this city and other cities for over thirty years. In an interview this week he said: "I am very well pleased with the business outlook for the future. In the past few weeks I have had on the average of one order a day, which is going some for this business. I have had people come in here for limbs that have had them made elsewhere, but were not satisfied with the fit. With my methods and the grade of material used I have been able to please these customers. When the others have failed."
People have been coming to our shop from all around the county. One party in particular from Palmyra, purchased a new limb from me some years ago, and after the original had worn out, was fitted up by another firm, but did not get the satisfaction he wanted and after he saw through an advertisement that was in business in Harrisburg, came up and placed an order for a limb. These are only one or two instances of our rapidly increasing business."

Advertisement: Lots of Nourishment in Good Fresh Milk

Good fresh milk contains a great deal of nourishment and to drink plenty of it may mean an additional ten years to your life. Doctors recommend milk to people whose health is falling and many are those who have been successfully built up by simply drinking a glass of milk each day.
There are different kinds of milk, the same as there are different grades of bread, or different grades of meat. The best that is obtainable is none too good. When buying milk, a person should always take into consideration where it comes from and the way it is handled before it finally reaches the home. The more care and consideration in the handling of milk and cream is an unknown quantity, yet there are many milkmen who take great care in their equipment and the cleanliness with which they distribute the milk.
The stock from which the milk comes has to be carefully tended and the barns well taken care of. Most up-to-date milkmen have concrete floors and modern sanitary methods to use in their dairy barns. Good, healthy, well-maintained stock produce the best grades of milk and that is the kind that should be used by the sick persons as well as the well ones. Milk is the universal food for babies and for this reason good judgment in choosing your milkman is essential.
The New Dale Dairy, John S. Kramer, proprietor, of Penbrook has a sanitary creamery and takes a great deal of pains in the handling of the milk and cream that passes through his establishment. He uses all the modern and up-to-date equipment known to the dairy trade. The milk he sells comes only from the best Guernsey and Holstein stock and is carefully handled from the time it leaves the farm until it reaches your door.

Advertisement: Asplendid Tribute to the Ford Car

One of the strongest tributes which has ever been paid to the strength, flexibility and endurance of the Ford Car came from the pen of the Hon. Charles W. H. Holetstein, Anglo-Serbian Field Hospital during the awful flight of the defeated Serbian Army. When she led her entire unit safely through icy torrents and ever snow-capped mountains—a terrible trek of 800 miles to the outskirts of Belgrade.
"There was only one thing to be done," said Holetstein, "because the hospital was not to be taken by the enemy. The staff, who usually rode in the motor, must walk; the worst wounded must go in the motor, those who could crawl must crawl, and as for the others—
"The road was abominable, with mud and holes and narrow and broken trails. The ambulances, all through the night obliged to lift the wounded out of the ambulances and carry them over the dangerous white cliffs, those wonderful Ford cars—performed acrobatic feats inconceivable to orthodox chauffeurs at home."
The West Shore dealer for the Ford car is Brooks Weigel of the New Cumberland Auto Co. These little old Fords do just the same kind of stunts over here; but they are not so noisy, because of the great number running around. It is not an uncommon occurrence to see a Ford get a good healthy bump, and as soon as the smoke clears away, it starts off again.

Advertisement: Many Interesting Books of Fiction on Sale

There are a large number of new books of fiction on the shelves that are interesting to book lovers, both old and young and as usually the case the Willis' Book Store in N. Third street are offering a majority of these titles for sale. This store is getting a reputation for having the latest books of all kinds.
This store aside from handling all the latest books also carries a full line of camera supplies, stationery, cards, fancies, magazines and so on. In fact anything in the stationary line can be procured. This store handles many specialties in their line that cannot be purchased anywhere else.

Advertisement: Coca-Cola Popularity on the Increase

It is an uncommon occurrence to walk into a soda dispensary and not hear some one say "Coca-Cola, with." No matter where you go or when you go, you will always here that familiar name.
Coca-Cola is by no means a new product on the market. It has been quenching the thirst of millions every year, for the past good many years, and is still on the increase in its march for popularity. It is one of the best thirst quenchers on the market. And the market is not a local one, it is almost universal. Coca-Cola is sold from Greenland's icy mountains to India's coral strands and is pleasing alike to young and old.
Coca-Cola branches are everywhere. They all come under the mother wing of the main factory, but in order to insure prompt and efficient service, each branch makes its own Coca-Cola. In Harrisburg the branch is located at 1326 Marion street and is open for inspection at all times. Everything is conducted under the most sanitary conditions. All the latest appliances for bottling and bottle washing are installed, and the swiftness with which this beverage is turned out is marvelous. Thousands of bottles a day are sent out from this branch to all the territory around Harrisburg.
Coca-Cola can be purchased by the glass, bottle, or by the case for home use. The good old summer time is on its way and when you settle down to think of what the summer drink will be, don't forget the best, "Coca-Cola."

Advertisement: Students to Work For Amendment

Dr. John Royal Harris, state superintendent of the Dry Federation of Pennsylvania, announced yesterday that an army of 800 students of colleges of the state, have agreed to make speeches during April and May for candidates for the Legislature who have pledged themselves to vote to ratify the national prohibition amendment, and that the students are members of the Intercollegiate Prohibition Association of Pennsylvania, and the college presidents together with the student president of each is as follows: Washington and Jefferson, Charles H. Guy; Albright, L. M. Miller; Bucknell University, Thomas J. S. Helm; Dickinson, G. Compton; Kerr; Franklin and Marshall, W. E. Moorehead; Grove City, Deane C. Walter; Juniata, Stover Kulp; Lebanon Valley, Paul Shannon; Pennsylvania State, P. H. Spreckle; Susquehanna University, Willard D. Allbeck.

Advertisement: Warren R. Jackson Elected Commerce Chamber Sec.

After weeks of careful consideration of numerous candidates for the position of secretary of the Chamber of Commerce, the board of directors last week elected Warren R. Jackson, secretary of the Washington, Pa. Board of Trade, to fill the position recently vacated by E. L. McColegin. The new secretary is expected to assume his duties in the near future.
Mr. Jackson has been secretary of the Washington Board of Trade since 1916. Since his administration began in that body he has increased the membership to one of the largest in the country, size of the city considered, and has made it one of the most active as well. It was Mr. Jackson who initiated and managed the Merchants' and Manufacturers' Exposition, a show of the products of the merchants and manufacturers of Washington, in which twenty-two leading manufacturers and twenty-five leading merchants participated.

PLAN to PLANT and WIN the WAR

Advertisement: Increase in Cost of Ford Cars Does Not Stop Sales

"The small increase in the price of the little old Ford is by no means stopping their sale. People are just as anxious to get them as ever and the orders that are waiting to be filled are stacking up to beat the band," said Mr. Williams, of the Williams Motor Car Co., the local distributor for the Ford Car. "We are not nearly able to fill the orders we have on hand, but are doing our best to do so. Delivery is the most serious thing we have to worry about."
The Williams Motor Car Co. has been doing a rushing business in Ford's this spring, and because of this big rush, are compelled to secure larger quarters. After April 1st they will have sales rooms and service station at 1808 Logan street. This will enable them to give prompt and efficient service on the handling of new sales and the distribution of parts.
This location is not a new one to the automobile business. It has been a garage location for a number of years and has gone under the name of the West End Garage. It is just above Kelliker street on the first small street east of Third.

Advertisement: Sanitary Plumbing Fixtures the Best

The best grade of plumbing fixtures are none too good for any home from the point of economy. When buying the fixtures for a bath room or kitchen, the first cost should be considered only with the after cost. Often times the cheaper grade of fixtures cost the most in the long run.
With the better grade of fixtures a guarantee always covers any minor details and the first cost is usually the last cost, and the satisfaction of having the best, is greater than when you have to worry whether your fixtures are going to work all right.
R. N. Wagner & Son, of Locust and Boas streets, Penbrook, handle only the best grade of material for plumbing, heating and gas fixtures. In installing these materials, they have only experts to do the work. Everything must be satisfactory to the customer before a job is finished. They have a large reputation for performing good services in the line of business.
Spring repair work is going on, on as large a scale as ever, only the shortage of materials holding up some of their jobs.

Advertisement: War Time Lexicon

(Copyright, 1918, by British Canadian Recruiting Mission, which maintains depots in all large cities where men, except Americans, may volunteer.)
Concussion:
The passage of big shells displaces air so suddenly, that a man within range will be knocked to the ground by the rush of air. Even a small shell falling close to a man will have the same effect, even if it does not explode. Thus dust shells (i. e. those that do not explode at all) will nevertheless cause concussion. The effect is a nerve shock; something seems to break in the brain, in the words of the men who have come back, "and they suffer a loss of self-control. If a man is very near a large shell, he will not only be knocked to the ground, but literally crushed to pulp by the same tremendous force that shatters buildings to kindling wood in the path of a cyclone. A man may be lifted high in the air off a hard dirt road by the concussion of a shell.
Shell Shock:
Concussion frequently leads to "shell shock" from which the soldier does not recover for weeks and months. As a nervous disorder, it makes a man irritable and quarrelsome. The first effect and the most common is blood trickling from the ear, which is nearly always the prelude to ear trouble the remainder of one's days. There is shivering and shaking of the body, the eyes have a vague expressionless stare and the whole body suffers from a mental and physical lethargy from which it is very difficult to rouse. Music is often employed as a means of arousing interest in "shell shock" patients.
