

BIG JUMP IN FRENCH PLANTING Many Acres of Wheat Sown Last Fall; Expect Good Crops in Summer

Paris.—(Correspondence of the Associated Press).—France, without a "bumper" crop of corn to fall back upon, is making a brave effort to increase the yield of other foodstuffs and there are now for the first time signs that the effort is producing results.

Nearly a million more acres of wheat were sown last fall than in 1916, according to recently completed statistics. With ordinary good weather this means nearly 20,000,000 bushels more of wheat.

Baker Aids in Emergency; Hurley Heartens the British

London, March 28.—The heartiest appreciation is expressed in representative quarters here of immediate steps taken by the United States in the present emergency.

That America was all in the war was well recognized before, but after the arrangements now completed, British confidence that the western Allies would spare nothing in the common cause of democracy is doubly assured.

Considerable satisfaction is also expressed with Chairman Hurley's survey of the city of Philadelphia, with its implied admission of the accuracy of the British Field Marshal's report, London is regarding last night's news as of the happiest augury.

State to Direct Mosquito Warfare Dr. B. F. Rorer, Acting State Commissioner of Health, who went to Philadelphia to-day to take up plans for mosquito extermination with representatives of the city of Philadelphia, Navy Department, Emergency Fleet Corporation, Westinghouse interests, state, county and local officials of Delaware county and three days, beginning Monday April 1, with daily matinees.—Mrs. Wiggs of the Cabbage Patch.

To Stop a Persistent, Hacking Cough The best remedy is one you can easily make at home. Clean, but very effective. Thousands of people normally healthy in every other respect are annoyed with persistent hanging-on bronchial cough year after year, disturbing their sleep and making life disagreeable. It's so needless there's an old home-made remedy that will cure such a cough easily and quickly.
