Nusk is one product of world commerce in which China practically enjoys a monopoly—not a large one, to be sure, since the annual output is at best only some \$400,000 gold, were shipped. The value of its commanding position in the perfume industries, France has been the largest purchaser of China's musk, the United States being section of the perfume industries, France has been the largest purchaser of China's musk, the United States forged ahead and bought more than a quarter of the entire output.

Good musk is bought for 10 times it weight in silver, and for that matter, gold as well, in these days of high exchange, says the Far Eastern Review, Chungking.

About one-half of the total output stays in China and is used especially by the Cantonese in compounding pills that form the best-known remedy in the Chinese pharmacopaela for Asiatic cholera. The Chinese also use musk to keep moths out of furs and clothing, and as a perfume, the odor being quite popular in the better grades of perfumery.

CONUNDRUM WITH AN ANSWER

'What is the difference between putting your money in Mr. Williams' Bank and putting it in his Oil Company?" ANSWER—"His bank makes enough to pay 4% interest, his Oil Company 24% ANNUAL DIVIDEND."

Monthly Dividends of Two Per Cent (2%) Are Now Being Paid by the
W. P. WILLIAMS OIL CORPORATION
Backed by Conservative Bankers and Oil Operators

WE believe the best investments in country to-day are the securties of high class oil companies which have passed the development stage. Oil is getting scarcer daily. The price has jumped 150

a barrel only recently.

The W. P. Williams Oil Corporation has approximately 4000 barrels a month production, and is managed by the most conservative Banker and Successful Oil Operators in the famous Irvine field, and is now paying dividends of Twenty-four Per Cent. from the development of only a small portion of its exceptionally large holdings.

Dividend Checks Mailed Monthly 2

The possibilities of its one hundred twenty-four thousand, and four hundred and seventy (124,470) acres of choice oil and gas lands, most of which are undeveloped, should put the Corporation in the front rank of the producing oil companies of the Kentucky field.

If you want to make six times the interest paid by the savings banks, cut out this advertisement and send it in to us to-day for detailed information, including a large and helpful map of the famous Kentucky field.
