

GOVERNOR URGES LIBERTY LOAN

Says State and Not Federal Officials Should Push It Along This Spring

The Pennsylvania Committee of Public Safety has been urged by Governor Brumbaugh in a letter sent to George Wharton Pepper, the chairman, to take the lead in the work for the third Liberty Loan in Pennsylvania and not to let the federal officials do it instead of the officials of Pennsylvania.

The Governor's letter is as follows:

"Dear Mr. Pepper:

"I note that Secretary McAdoo has called for the third Liberty Loan and that the plans are now forming to make it a pronounced success. It occurs to me that it is a curious comment upon our loyalty and our understanding of democracy if we need at any point the urging of Mr. McAdoo in securing the funds for this war. Our accredited representatives in Washington decreed this war and ordered the selling of bonds to meet its cost. It is the people's war. They have spoken in the legal way. They should assume completely the obligations of their own act. The people are the Government. The people ought to support their own act and put in the hands of their own agents all necessary funds to win the war. I sincerely hope our people will understand that it is their duty to tender to Secretary McAdoo this loan in full. We ought not to permit him to ask us for it. We have no justification if we must be importuned by the federal authorities to give the funds which are essential to their doing the duty we have laid upon them. If we lag and was and delay in any way fail to take the initiative in this we set a sorry example to the world of efficient democracy.

"I am, therefore, constrained to ask the Committee of Public Safety to take this service in hand and tender to our federal officials gladly our full quota of the loan and not have the federal officials lead in the campaign for this money. It is our duty. When we give our money at a fair interest we are not giving much. I think of the boys that are giving their all, of the fathers that are sending splendid sons of the blessed mothers that are giving their heart's blood and love, of the wives that are surrendering their support and the provider of their

children. I think of the ideals of this republic which our fathers have set, and I should feel that we had done only a reasonable service in voluntarily giving to the Government the full sum required. If you are like-minded, and I am confident that you are, will you please lay this clearly and convincingly before all our citizens through the appropriate channels?"

"Very truly yours,
 "M. G. BRUMBAUGH,
 Governor.
 "Hon. George Wharton Pepper,
 Chairman, Committee of Public Safety, Philadelphia, Pa."

Boys Confess Firing Big Hazleton School

Hazleton, Pa., March 29.—Raymond Hoeber and Peter Kordalski, each fourteen years old, confessed to Chief of Police Brownson yesterday, according to that official, that they accidentally started the fire which destroyed the twenty-four roomed school building in Church street Saturday night, causing a loss of about \$150,000. According to Chief Brownson, they had broken into the school bent on theft and were taking a saw from the janitor's cupboard in the basement when a taper carried by Kordalski dropped into some oil waste, setting it ablaze.

Chief Brownson said the boys confessed that they vainly tried to check the flames by throwing water on the oil and then fled in alarm to the theater. They remained there but a short time and returned to the scene after a general alarm had been sounded.

German War Veteran Joins U. S. Cavalry

Tamaqua, Pa.—Gottlieb Stoya, aged 78 years, proprietor of a big farm at Reynolds, south of here, walked into the local recruiting office to-day and enlisted in the United States cavalry. He looks twenty years younger and his physical condition is so good that he was ordered to report at Harrisburg for examination.

Stoya is a native of Germany. He fought with Hanover against Prussia, was in the Franco-Prussian War and afterward served in the French cavalry. He has lived here twenty-five years and has been naturalized fifteen years.

He is an expert horseman, as active as a boy and anxious to go to France to get a "whack" at the Kaiser.

Even though he should be turned down at Harrisburg, owing to his advanced age, Stoya has the honor of having signed up and is under Army discipline. The claim is made that he is the oldest soldier in the United States Army.

Hats Come Off When Elevator Girls Smile

Spokane, Wash.—Men doff their "kellys" in the elevators at Davenport's now. They do it even when they ride alone. In former days men weren't so particular about their hats in elevators. But in the girl operators at Davenport's 19-story "block" have adopted a rule that is working the wonder. They refuse to smile at any man who enters their car and keeps his hat on.

The rule works, the girls smile and the "hats" come off.

War Time Lexicon

(Copyright, 1918, by British Canadian Recruiting Mission, which maintains depots in all large cities where men, except Americans, may volunteer.)

Tank Emma: Affectionate abbreviation for French Mortar.

Weeping Pill: Another name for Tear Shell or the shells containing irritating gas that causes temporary blindness of soldiers affected by it.

Foot Ball: One of the 60 pound trench mortar shells, shaped like a foot ball.

Pea Shooter: The artillery man's name for his gun.

Heavies: The soldiers refer to the big guns as "heavies"—they are large caliber guns discharging shells weighing from 60 pounds to 2,000 pounds, and are effective at distances of many miles.

French Beer: Two percent beer, which the soldiers consider about as "thrilling as the kiss of a man's sister."

Dejeuner: Word taken over from the French, meaning to the soldier, "Breakfast."

Mess Tin: So necessary a part of the soldier's equipment that one battalion used 15,000 from the time they went to France until 1914. It is all things, plate, cup and bowl. In emergency, a shaving mug or a soup can is a worthy substitute.

Rain Trench: All the soldiers are dealt out a measure of rum each morning before "stand down" or roll-call. It gives them something warm after a cold wet night in the trenches and a bit of comfort.

Iron Trenches: Not always food, though sometimes meaning the 24-hour emergency rations dealt out to men going into the fire-trench. Also applied, however, to the shells thrown by our artillery at the Hun.

Wants to Give U. S. Profits of Garden

Washington, March 29.—E. E. Dixon, of Cochransville, Pa., is a real patriot and has won a letter of appreciation from the Secretary of the Treasury. Mr. Dixon planted a war garden last year and made a profit of \$12 on the venture. He pondered most of the winter as to what he should do with the money, and finally sent it to the Treasury Department as a contribution toward "winning the war." Secretary McAdoo directed that the money be invested in thrift stamps, which he has sent to Mr. Dixon with this letter:

"My Dear Mr. Dixon—I have your letter of the 21st of March, enclosing your check for \$12, representing your profit on your war garden, which you desire to donate to the government for the purposes of the war. I was deeply impressed by this double evidence of your patriotism, and congratulate you on your loyal spirit.

"Since the government, outside of taxation measures, is only asking the people to loan their money to it, I am directing that the Treasurer of the United States send you \$12 worth of thrift stamps, which you may convert into war savings stamps and thus have an excellent investment at the same time helping your government.

"I hope your example will be followed by others."

THE GRAND PIANO is the ultimate piano. It is the "can't-go-beyond" of musical instruments. It is the unanimous choice of all musicians, of all piano men, both dealers and manufacturers alike. There isn't a person in the land who has a home in which he is interested but who, ultimately, wants a Baby Grand installed within it. But until the advent of this new and latest model of The Brambach Co., this has been impossible for the reason that Grands were of such large size that they could not be accommodated in the average size room. Besides this, their cost has been prohibitive.

But it remained for The Brambach Co., an old and distinguished firm of piano builders, of New York City, to build a Grand piano that would take up no more floor space than an upright piano, and in such numbers that it could be sold at a price within the reach of everyone. This beautiful little instrument, when placed in a corner of your room, takes up no more space than an upright piano. Its beauty as a piece of furniture and its excellence as a musical instrument is simply not to be compared with any other form of piano.

The 25 Brambach Baby Grands we secured to offer at \$495 each are going rapidly

We were able to secure but 25 instruments to sell during this sale. The price, which is \$495, may be paid in a small cash payment when purchase is made; the balance in small weekly, monthly or quarterly payments, spread out over a period of three years.

And as a further evidence of the high character of these most remarkable instruments, we freely offer to refund all money paid if, for any reason, the instrument you select is not satisfactory after 30 days' use in your home, and to exchange it at full price for any other new instrument we sell of equal value, at any time up to within 6 months of date of purchase. But you must come at once. They are going rapidly.

The Brambach Baby Grand is guaranteed without reservation for a period of five years, in a guarantee which is signed jointly by the manufacturers, The Brambach Company, and ourselves.
