

MURT BLOCKS LOVE TO ABSORB CANAL BONDS

Harrisburg stockholders of the old Pennsylvania Canal Company are vitally interested in a decision handed down yesterday in Philadelphia by Judge Woolley, of the United States Circuit Court of Appeals. The court blocked a move to absorb money due canal company bondholders. There are many stockholders in Harrisburg and vicinity who also hold bonds. The Philadelphia court's decision is a blow to the efforts of the Pennsylvania Railroad Company to absorb a fund of more than \$2,000,000, which it was to create to pay bondholders of the defunct Pennsylvania Canal Company, previously unsuccessful yesterday, when Judge Woolley, of the United States Circuit Court of Appeals, filed an opinion sustaining Judge Dickinson, of the District Court, in the matter.

KEEPS KIDNEYS ACTIVE WITH A GLASS OF SALTS

Must flush your kidneys occasionally if you eat meat regularly.

Noted authority tells what causes Backache and Bladder weakness.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacist and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine, so it no longer causes irritation, thus ending bladder disorders. Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all peculiar most distressing kidney ailments and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.

Judge Woolley that the railroad company should not be taxed with any portion of the fees, as a bondholder, as had been ordered by Judge Dickinson. Object to Counsel Fee. "The appellate court, through Judge Woolley's opinion, presented that the counsel fee of \$200,000 awarded to Thomas Raeburn White and other attorneys for the bondholders, should be reduced to at least \$100,000. "It ordered also that the lower court, in modifying its decree as it directed, should cut to \$10,000 the original fee of \$20,000 allowed to David Wallerstein, as special master in the case.

"Litigation between the railroad and the bondholders of the canal company has been in the courts for years. It grew out of the failure of the railroad to maintain a sinking fund to meet the bonds of the canal company at maturity, as required by a mortgage.

"What Railroads Claim "After Judge Dickinson had ordered it to create a fund of \$1,923,408.16 which was now increased to more than \$2,000,000 through interest accumulating, the railroad presented a plan to pay the interest on the coupons of the bonds of the canal company. It made the contention that the coupons were entitled to priority and should be paid before the principal of the bonds.

"Judge Dickinson disallowed the claim, holding that actions of the canal company should be responsible for the maintenance of the fund to pay the bonds. In this ruling he is upheld by Judge Woolley. In his decree in favor of the bondholders, Judge Dickinson directed that \$200,000 be paid out of the fund to counsel for their services, and a fee of \$20,000 to the attorneys responsible for arranging for the distribution of the fund, as special master appointed by the court.

"The master's services," said Judge Woolley, "is mainly to be found in a few brief meetings held at intervals during a period of less than three months."

ENTIRE AVIATION FIELD IS GIVEN TO AMERICANS

British Royal Flying Corps Rushed Work in Texas Camp

Fort Worth, Tex., April 2.—The British royal flying corps commanded by Brigadier General Home, of Indian jungle campaign fame, which has been training here since October, soon will be starting back to Toronto, Canada. The training will be resumed in Canada.

The British, thousands strong, came to Fort Worth and shared the three American fields here at the invitation of the United States government. It was a return courtesy for the British invitation last summer to the Americans to train in Canada. Among the first arrivals at the American aviation training fields was Lord Wellesley, grandson of the Duke of Wellington and now a lieutenant colonel. Lord Wellesley will head the first contingent that leaves Fort Worth for Canada.

Another famous flyer who reached the Texas fields, was Captain Vernon Castle, an ace of the air, who subsequently was killed in an accident.

The British opened the three fields here, taking charge before the American mechanics. They have assumed charge of the training, even of the Americans, and have directed the aerial gunnery school continuously. Major Duffell has been in charge of the gunnery branch since Major Kinnersley was sent back to the western front.

The training has been rapid and intensive, nothing illustrating this more than the large number of cadets killed. To date 47 deaths have occurred from accidents at the three fields—two-thirds being British. The vast majority of those killed were cadets—only two captains succumbed. Major Duffell has a number of other officers were injured. Three mechanics have been killed.

The number of mechanics sent abroad has not been large, each squadron being composed almost exclusively of flyers, so great has been the call.

The British will not return to Canada in one body—the movement extending over ten days. After the men in the fields have moved out the British will return to the United States. Whether the British will return to Fort Worth next fall depends upon whether they receive an invitation from the War Department, it is said here. With the departure of the English, the fields here will be devoted to Americans.

RAILROAD RUMBLER FREIGHT TRAFFIC RAILROAD BOARD OF ADJUSTMENT

Effective on and After Tomorrow; Final Warning Given Local Shippers

On and after tomorrow, April 3, important changes in rules, governing the marking of less than carload freight, will be effective. These rules give shippers on the Philadelphia and Reading Railway and Pennsylvania Railroad lines. Beginning tomorrow, each package, bundle, or loose piece of freight must be plainly marked in accordance with these rules.

Special notices of interest to shippers and telling of the changes were posted and sent to local shippers yesterday, by Joseph S. Klinedinst, freight agent for the Reading in this city. They were issued by R. L. Russell, general freight agent for the Reading at Philadelphia. Important changes in rules were made public some time ago in a circular issued by J. Norris, local agent for the Pennsylvania Railroad. Changes and classification in effect to-morrow are as follows:

Freight, when delivered to carriers to be transported at less than carload or any quantity ratings, must be marked in accordance with the following requirements and specifications. If these requirements and specifications are not complied with, freight will not be accepted for transportation.

Each package, bundle or loose piece of freight must be plainly, legibly and durably marked by brush, stencil, marking crayon (now chalk), rubber type, metal type, pasted label, tag, or other method which provides marks equally plain, legible and durable, showing the name of the only one consignee, and of only one Station, Town or City, and State to which destined.

When consigned to a place of which there are two or more of the same name in the same state, the name of the county must also be shown.

When consigned to a place not located on the line of a carrier, it must also be marked with the name of the station at which consignee will accept delivery.

When such cloth or board tag is tied to any bag, bale, bundle, or piece of freight, it must be securely attached through a reinforced eyelet or wooden containers must be fastened at all corners and center with large headed tacks or tag fasteners; or

Tags may be tied to wooden pieces when the freight would be injured by the use of tacks or tag fasteners. Tags tied to bags, bales, bundles or pieces must be securely attached by strong cord or wire, except that when tied to bundles or pieces of metal they must be securely attached by strong wire or strong tarred cord.

Labels must be securely attached with glue or equally good adhesive. Tags must be made of metal, leather, cloth, or rope stock or suitable fiber tag board, sufficiently strong and durable to withstand the wear and tear incident to transportation, and

PARIS IS AGAIN SHELLED BY GUN AT LONG RANGE

Pope Sends a Message of Sympathy to Cardinal on Murders

Paris, April 2.—The bombardment of Paris by long-range German guns was resumed yesterday.

Four persons were killed and nine injured by the bombardment, according to the official announcement last evening.

Mlle. Germaine Franciers, auxiliary nurse at the American ambulance at Neuilly, was one of those killed in the church which was struck by a German shell on Good Friday.

Cardinal Amette, archbishop of Paris, Sunday received a following telegram from Rome:

"The holy father, deploring the fact that the bloody conflict which has caused everywhere so much suffering has again, on the very day of the Saviour's passion, found more innocent victims, who are still dearer to his heart owing to their faith in piety, expresses his deepest sympathy. He sends the apostolic blessing to all the faithful in Paris and desires to know if it is necessary to send material aid to the families in mourning."

SUCH TRAGEDIES MUST BE EXPECTED, BERLIN SAYS London, April 2.—Speaking of the loss of life in a Paris church from a shell fired by long-range German gun, a semi-official Berlin dispatch forwarded from Amsterdam by the Central News, says it is to be deplored, but that every church within an attacked fortress necessarily is subject to incidental hits. The responsibility for the security of the inhabitants of Paris, the dispatch says, must rest with the French government.

250,000 TONS OF SHIPPING Tokyo, Wednesday, March 27.—The amount of tonnage to be turned over to the United States by Japan under the arrangement made by the Japanese Shipping Commission, is estimated by the press at about 250,000 tons. This 150,000 tons will be provided by the Government and the remainder by shipbuilders in exchange for American steel.

Secretary's Granddaughter Will Unveil Liberty Statue at Opening of Loan Drive

Philadelphia, April 2.—Four-year-old Nona Martin, a granddaughter of Secretary of the Treasury McAdoo, will unveil the gigantic reproduction of the Statue of Liberty at the opening of the Third Liberty Loan campaign here next Saturday. The child is a daughter of Mrs. Tabor Martin of this city. Secretary McAdoo will be the principal speaker at exercises following the unveiling. Under the original plans he was also to have unveiled the statue, but he requested that his little granddaughter be given this honor.

Extensive arrangements have been made to inaugurate the drive in Philadelphia. In addition to the unveiling of the statue there will be a parade, in which 1,200 girls dressed as Goddesses of Liberty, will take part and a meeting at the Academy of Music, which will be addressed by Secretary McAdoo and a number of other distinguished men. The Governors of Pennsylvania, Delaware and New Jersey will review the parade.

LITTLE CORN SHIPPED TO ALLIES DURING THE WINTER Washington, April 2.—Only 11,000,000 of the 100,000,000 bushels of America's 1917 corn crop needed by the allies has been forwarded, as shown in export figures compiled today by the Food Administrator. Last year at this time 64,000,000 bushels had been shipped.

The decrease is attributed to lack of rail and ocean transportation. There will be no shipments during the next two months. It was said, because at this time of year corn spoils in transit. Later exports will be resumed to the extent that transportation is available.

Rioting in Quebec Is Continued During Night

Quebec, April 2.—Fighting between the rioting element in Quebec and the military forces, which resulted last night in the killing of at least four civilians and the wounding of a number of others, continued into the early hours today. After midnight the fighting died down to a very great extent, but men on horseback sniped the soldiers for hours.

All night Quebec resounded with the tread of marching men and the hoarse commands of the officers. The guard placed on the public buildings and in the area where fighting took place was maintained all night.
