Many Useful Articles Being Knit for the Soldier Boys

Never before has the American woman taken to knitting on a large scale as the present time. Every one of them who did not know how to knit before, is learning now and those who have not are almost out of date. The Red Cross has been the incentive to many and others have boys of their own for whom they are knitting.

A LITTLE TALK WITH LIET. "PAT" O'BRIEN

pumping you—trying to find out things. They always acted pretty decent. I made you talk. The food wasn't much. For breakfast we had black coffee—no sugar or milk. That was all, unless you saved some bread from the day before. For lunch we had soup and boiled cabbage or boiled beets. Once in a while we got some sort of pickled meat—as white as paper. At night we had tea—they called it that—and bread, and sometimes canned hash or beef jam. Somehow, I never could get to like beef jam.

Milk Not High in Comparison to Other Foods; Has Great Values

There is a good deal of agitation now-a-days in the mind of the average businessman as to how he is going to make both ends meet for the coming season. It seems as if everything but the paraffin has gotten a decidedly shown a disposition to imitate a Zeppelin, and go away up in the air, as far as price is concerned. Of course few foods without which man would be lost. Not only is it an excellent food in itself, but its variety and multiplicity of uses in other foods and in combination with other eatables, make it ever more valuable. In these times of stress and strain, the best foods only should be eaten, and milk is one of the best foods. The Cumberland Valley Dairy at Lemoyne, Clarence Gill, proprietor, operate one of the most up-to-date plants in Harrisburg and vicinity, for the distribution of milk and cream. Thousands of dollars have been invested in modern machinery and all milk sold by the Cumberland Valley Dairy has been pasteurized, clarified and otherwise treated in the most approved sanitary methods.
