Silver at \$1 Per Ounce Proposed as War Spur

By Associated Press
Washington, April 9.—Melting into bullion of not more than 250,000,000 silver dollars now in the Treasury for sale and export to pay trade balances and the repurchase of silver at \$1 an ounce, is proposed in an administration bill introduced today by Senator Pittman as an emergency war measure.

Silver certificates would be withdrawn from circulation as the dollars are taken from the Treasury and Federal Reserve Bank notes of new \$1 and \$2 denominations substituted. If enacted the measure virtually would fix a standard price for silver at \$1 an ounce, several cents above the present market, and stabilize the world market, since the United States produces almost half of the total.

How France Advertises Her Liberty Loans

The Telegraph begins to-day publication of a series of French war loan posters through the courtesy of George E. Etter and Edward Bailey, who own the originals which were received recently from soldiers in France. At the top of the picture are the words "They'll get 'em," and at the bottom under the picture this—"Second loan for national defense. Subscribe."

COAL SHORTAGE AGAIN ALARMS

By Associated Press.

Washington, April 9.—Shortage of coal cars at the mines has become again so grave that fuel administration officials say that vigorous action will have to be taken at once by the railroad administration to maintain equality of supply at all bituminous mines if another coal famine next winter is to be averted.

Rescued by Workmen

The machine, which daily brings the young women to and from work, was driven by a soldier attached to the camp and was going at a moderate rate of speed, the girls said after the accident.

Near the big Jednota settlement halfway between Highspire and Middletown the machine skidded in the mud and struck a telegraph pole. The force of the impact turned the automobile completely over the spun to around until the engine was fronting toward Harrisburg.
