NO MORE CATARRH

Catarrh cures come and catarrh cures go but Hyomel continues to heal catarrh and abolish its disgusting symptoms wherever civilization exists. Every year the already enormous sales of this really scientific treatment for catarrh grow greater, and the present year should show all records broken. If you breathe Hyomel daily as directed it will end your catarrh, or it won't cost you a cent. If you have a hard rubber Hyomel inhaler somewhere around the house, get it out and start it at once to forever rid yourself of catarrh. H. C. Kennedy, or any other good druggist, will sell you a bottle of Hyomel (liquid), start to breathe it and notice how quickly it clears out the air passages and makes the entire head feel fine. Hyomel used regularly will end catarrh, coughs, colds, bronchitis or asthma. A complete outfit, including a hard rubber pocket inhaler and bottle of Hyomel, costs but little. No stomach dosing; just breathe it. It kills the germs, soothes and heals the inflamed membrane.—Advertisement.

Clear, Peachy Skin Awaits Anyone Who Drinks Hot Water

Says an inside bath, before breakfast helps us look and feel clean, sweet, fresh. Sparkling and vivacious—merry, bright, alert—a good, clear skin and a natural, rosy, healthy complexion are assured only by pure blood. It is only every man and woman could be induced to adopt the morning inside bath, what a gratifying change would take place. Instead of the multitudes of "skin-wrecks," "run-downs," "brain fags" and pessimists we should see a virile, optimistic throng of rosy-cheeked people everywhere. An inside bath is had by drinking a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening and refreshing the entire alimentary canal before putting more food into the stomach. Those subject to sick headache, biliousness, nasty breath, rheumatism, colds; and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store which will cost but a trifle, but is sufficient to demonstrate the quick and remarkable change in both health and appearance awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood while the pores in the thirty feet of bowels do.
