### STOCKS SELL UNDER PRESSURE OF BATTLE

Except in Leading Shares, Trading Is Limited to Small Individual Lots-Heavy Closing Marks Week's End

City Markets

New York, April 18. — The more critical stage in the war situation caused renewed selling at the opening of to-day's stock market. Specialties reacted 1 to 1½ points and rails yielded substantial fractions to a point. Equipments, Motors and some of the minor unclassified issues featured the decline, which was halted later, losses in a few instances being partly recovered. Trading except in leading shares was limited to small individual lots. The closing was heavy. Sales approximated 150,000 shares. Liberty 3½s sold at 98.85 to 98.96, first 48 at 96.24 to 96.30 and second 4s at 96.10 to 96.22.

In connection with David Belasco's selection of Arthur Byron to play the role of Dr. Gerald With the Sumner, the Love Boomerang," which is at the Orpheum to-night, there was a coincidence that is worth relating, Two years ago, when Mr. Byron was out on the Pacific coast, he was working on the scenario of a play about a doctor. It was the result of his having been urged by several of his friends for a number of years to get someone to write a play for him about a doctor and have the scene laid in a doctor's office, telling him that such a play, rovided it was a good one, should have quite an appeal. Byron always possessed a fund of "doctor" stories and anecdotes, and on more than one occasion had been reminded that both in appearance and temperament he was ideally suited for playing such a role. With these suggestions taking more definite form in his mind, he had just started to work on the outline of such a play when a telegram came from Mr. Belasco, asking him if he would play the part of Dr. Sumner in "The Boomerang."

He thought it over and concluded; David Belasco, Winchell Smith and a play about a doctor; it coudn't possibly fail. Byron immediately wired his acceptance and left the company he was playing with in Portland, Ore, coming east to start rehearsals for "The Boomerang" at traction, Bernard's "The popular attraction, Bernard's "Darktown Follies" Company, will be \$1.78@1.82.

The title really constitutes a gigantic interjoation mark, inasmuch as it implies a serious question. Miss Neiland, being a woman herself, must be given credit for knowing what sort of a girl is meant who should be denied the blessings of matrimony and consequent motherhood. Her implication is a riddle which each individual will endeavor to solve to their personal satisfaction, but it is extremely doubtful if the correct solution will be found until the play is disclosed here. Every man naturally feels that his wife or sweetheart embodies all the qualifications of an ideal of his own creation and yet this play shows a type of girl "no man should marry." The question is a delicate one and yet of the play is disclosed here.
