Railway and Water Lines

Lemoyne, April 16.—No arrangements have been made by the Government officials for the extension of trolley and electric service and pipe lines to the site where the Government buildings are to be built, it was learned this morning. Officials of the Valley Railways Company, is Riverton Consolidated Water Company and United Electric Company, with offices here, were unable to say whether the Government intended requesting their assistance in getting trolley service, water and power.

It is understood, however, that at a conference of railway company officials, Cumberland county authorities and Government representatives at New Cumberland several weeks ago the advisability of representatives at New Cumberland was discussed in detail.

Would change for but one other—the one I have always known—home and head-nurse mother.

CATARRH VANISHES

Here is One Treatment That All Sufferers Can Rely Upon Here is one Treatment That All Sufferers Can Rely Upon

If you want to drive catarrh and ali its disgusting symptoms from your system in the shortest possible time, go to your druggist and ask for a Hyomei outfit to-day.

Breathe Hyomei and it will rid you of catarrh; it gives such quick relief that all who use it for the first time are astonished.

Hyomei is a pure, pleasant antisoptic, which is breathed into the lungs over the inflamed membrane; it kills the catarrh germs, soothes the sore spots, and heals all inflammation.

Don't suffer another day with catarrh; the disease is dangerous and often ends in consumption. Start the Hyomei treatment to-day. No stomach dosing, no sprays or douches; just breathe it—that's all. Ask H. C. Kennedy.—Advertisement.
