

12 U-Boats Reported Captured in Two Days by Device of America

New York, April 17.—America has perfected a device that is so effective against the German submarines that it has captured more than a dozen of them within two days, according to Charles E. Mitchell, president of the National City Company.

"I have received word from a most reliable source that America has put forward a new invention which has been tried against the German U-boats, and that this invention was so successful that more than a dozen submarines were captured within a space of two days."

Following his address, Mr. Mitchell refused to elaborate upon his statement, or give the source of his information.

"Not another word," he said, "that is all that I can say."

Mr. Mitchell also confirmed the report that the United States had perfected a new poison gas, much more effective than anything now used in Europe.

BIBLE CLASS HOLDS SOCIAL The Men's Bible class of the Redeemer Lutheran Church, Nineteenth and Kensington streets, held a social last night in the shimmery building.

Only those afflicted with Eczema, with its terrifying irritation and ceaseless itching know what constant torture this disease can cause.

Years of untold suffering can be avoided if the real cause of a disease can be definitely determined, and the proper method of treatment employed.

Eczema is very often considered a skin disease. This is a natural mistake, as it attacks the skin and it is through the skin that it causes so much discomfort and suffering.

Hot Water Each Morning Puts Roses in Your Cheeks To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins.

American Staff Chief, Missing After Action, Returns With Prisoner

Washington, April 17.—Members of Secretary Baker's party on the trip to Europe brought to Washington to-day new details about the exploit of Colonel Douglas MacArthur, former War Department censor, who recently joined a French company in storming a trench and came back with a prisoner.

Going with the French by special permission, the colonel was missing when the action was over. He soon reappeared, leading a big Bavarian officer by the ear with one hand and swinging a riding whip with the other.

M. L. KAST ELECTED HEAD OF ARCHITECTS Miller L. Kast, of Harrisburg, was elected president of the Southern Pennsylvania Chapter, American Institute of Architects, held at the University Club yesterday afternoon.
