

U.S. TO HAVE ARMY OF 3,000,000 UNDER ARMS THIS YEAR

Great Fighting Force Can Be Called From First Draft Class

Washington, April 18.—Three million American men, physically fit and having no dependants, soon will be in the human reservoir from which the man power of the United States is to be drawn during the next year to wage war against the Central Powers.

This vast reserve supply will be made available simultaneously with the enactment by the House of the bill for the registration of all men in this country who have become 21 years of age since June 5 last.

As men who have dependants are not placed in class one, this means that the United States could put an army of 2,500,000 men in the field without taking a single man out of class two, the class made up of men having partial dependency their being at the present time more than 1,500,000 men in the American Army.

By JEANIE MacPHERSON, from the story by Perley Poore Sheehan An Artcraft Picture

"Cecil DeMille" has done nothing better in his distinguished career than the direction of this feature, numerous as his screen successes have been in the past. It is a difficult matter in referring to a production of such high quality to pick out the scenes which stand forth most prominently. He has directed such productions as "Joan the Woman," "The Woman God Forgot" and "The Devil Stone."

"The Whispering Chorus" in story form has had wide circulation. Thousands who have read it are eager to see it in motion pictures.

Any picture produced by Cecil B. DeMille is a picture for you to see.

This is what the critics have to say about this wonderful moving picture production, which is shown in other cities at \$1.00.

"A picture the strength of which cannot be easily rated. It is tremendous in its force."—Motion Picture News.

"Will not only entertain, but will prove of incalculable value for the message it almost unconsciously conveys."—New York Evening Sun.
