

ST. LAWRENCE CHURCH IS TO BE SET APART

(Continued From First Page.) dren in their final rehearsals for tomorrow's great event. The ceremonies really begin this evening with the recitation of the canonical hours by the clergy, when the relics will be placed in the reliquaries and solemnly sealed by the Right Reverend Bishop.

Coming of The Sunbeam

How to Avoid Those Pains and Distress Which so Many Mothers Have Experienced. Too much cannot be said for a wonderful preparation, familiar to many women as Mother's Friend.

It is more effective in its action than all the health rules ever laid down for the guidance of expectant mothers. It is an external application that spreads its influence upon the cords, tendons and muscles of the abdomen, rendering them pliant, and they expand gracefully without that peculiar wrenching strain.

The occasion is, therefore, one of unbounded joyful anticipation and too much stress cannot be laid upon the remarkable influence which a mother's happy prenatal disposition has upon the health and fortunes of the generations to come.

livered by the Rev. Leopold Schneider, C. P., formerly of the parish. St. Lawrence's Church is a free rendering of the early Gothic style of architecture, the distinguishing characteristic being simplicity and massiveness of composition. The main facade in State street, which is flanked by a square tower, is marked by the great rose window, with its interesting tracery and tall double clearstory. The aisle walls are low, with small twin apertures for the admission of sufficient light for the aisles and are in marked contrast in size and simplicity to the large clearstory windows which furnish the principal lighting of the interior.

The clearstory windows fall double in size of the aisle windows, and contain tracery of varied designs. The stained glass is the best sample of the glassmaker's art in this vicinity. The entire church measures 120 feet from the entrance doors to the rear wall of the sanctuary and sixty feet in width. The walls are constructed of Indiana limestone, obtained from the Foxcroft quarries, and contain a variety of stones which add interest to the plain surface.

"THAT EGGSY TASTE IS GONE" HE SAYS

Appetite Has Come Back and He Feels Better in Every Way. Says Ben Strout. "I don't know just what my trouble was, but I know I felt all in," says Benjamin F. Strout, a temperate, middle-aged man, who lives at 515 North Thirteenth street, Harrisburg, Pa. "I had no appetite, I didn't want to eat, and I always had a nasty sort of an eggsy taste in my mouth. "I'd heard a lot of the men around in the shop talking about Tanlac, so I thought I'd try it, maybe it would fix me up; and sure enough it did. Just fixed me right up in no time at all.

in its latest communication that the situation is unchanged. The French success on the Picardy battlefield was gained on a three-mile front, running from north to the southwest of Moreuil. The apex of a sharp-pointed salient west of Castel was within three miles of the railway running south from Amiens and was the nearest the Germans had gained in the offensive which began more than four weeks ago. The Germans have been driven from Senecourt wood and from a sharp-pointed salient outside of Castel and progress also was made south of Castel. Five hundred prisoners, including fifteen officers, were captured by the French.

Ireland Is Calmer

Italian troops will be sent to the western front to aid the embattled French troops against the Germans. Announcement of this effect has been made in the Italian Chamber of Deputies by Premier Orlando. The various political parties in Ireland have put up their heads and will resist conscription by the most effective means at their disposal. The Irish bishops have expressed their opposition to a conscription clause, but no home rule measure has yet been submitted to Parliament. Cession of all work in Austria for peace has been ordered by the German Socialist party in Austria, according to Amsterdam reports.

Enemy Quiet After Exhaustive Attacks on Flanders Front

With the British Army in France, April 19.—Exhausted by the failure of yesterday's heavy attacks on the Ginchy-La Barce canal front, the Germans made no further move during the night and on the greater part of the Flanders battlefield quiet prevailed this morning.

BRITISH STAND FIRM BEFORE NEW ATTACKS

(Continued from First Page.) using ten divisions, or about 137,000 men. Haig Outwits Enemy. Capture of most of the Messines-Wytschaete ridge by the Germans did not bring the defeat of the British much nearer, as Field Marshal Haig anticipated the enemy by withdrawing his line northward and east of Ypres. In this region the Germans are floundering in mud, while efforts to turn the British line south of Ypres have failed with severe losses. Twice Thursday the Germans threw large forces against this hill but each time were thrown back in sharp encounters. Intense fighting and artillery duels continue here and westward toward Meteren. In switching their strong efforts from the Messines ridge, which the Germans have not yet gained any success. Their evident desire on the front northwest of Ginchy is to cross the canal and attack the flank Bethune and with it probably Lens and Arras. The elimination of the Lens-Arras salient would make less secure the allied line in Picardy.

BEAUTIFUL HAIR THICK, WAVY, FREE FROM DANDRUFF

Draw a moist cloth through hair and double its beauty at once. Save your hair! Dandruff disappears and hair stops coming out. Immediate? — Yes! Certain? — That's the joy of it. Your hair becomes light, wavy, fluffy, abundant and beautiful as a young girl's after an application of Danderuff. Also try this—moisten a cloth with a little Danderuff and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits you. Dandruff has been neglected or is serious, faded, dry, brittle or thin. Besides beautifying the hair, Danderuff dissolves every particle of dirt, invigorates the scalp and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be the fact that it costs but a few cents for a bottle of Danderuff. Danderuff is from any drug store or toilet counter and try it as directed.

French Artillery Reduces Machine Gun Nests of Teutons Before Amiens

By Associated Press. Paris, April 19.—The French last night reduced German machine gun nests on the front of yesterday's attack south of Rheims, the war office announces. There was heavy artillery fighting in this region.

MARINES TO NUMBER 75,000 MAJOR-GENERAL TO GO ALONG

Washington, April 19.—Increase of the Marine Corps to 75,000 men and direction that a major-general of marines accompany the marines to the front in Europe, were agreed to by the House Naval Affairs Committee to-day as an amendment to the naval appropriation bill.

Old French Beauty Secret

Mlle. De Loree, the famous French actress, who recently arrived in her 45th year, has astonished everyone who has seen her, by her exquisite complexion and clear, bright skin, which look younger than by a single line or wrinkle. When asked to explain how she had retained her marvelous skin, she replied that she had always practiced one of the oldest of French beauty secrets: a secret which for years was jealously guarded by the court ladies of Napoleon the First. It consists of laying a warm cloth on the face each night before retiring for sleep. The cloth is moistened with the cream and then when the cloth is removed, a generous amount of ordinary anti-oxidized cream should be applied over the entire face and neck, massage it gently into the skin with the fingers. The first time you do this, then wipe off the surplus with a soft dry cloth. Mlle. De Loree says that any American woman who has wrinkles and large pores or flabby loose skin, can easily and quickly overcome these destroyers of beauty by the use of this simple yet delightful and natural beauty secret, which is inexpensive and after the first use is almost a good drug.

Start Tomorrow and Keep It Up Every Morning

Get in the habit of drinking a glass of hot water before breakfast. We're not here long, so let's make our stay agreeable. Let us live well, eat well, digest well, work well, sleep well and look well. What a glorious tortion to drudge, and yet, how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the system. A thorough flushing out of the stomach, liver and bowels is the action of hot water and limestone phosphate on an empty stomach. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs. The millions of people who are bothered with constipation, bilious spells, stomach trouble; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of inside-bathing before breakfast.
