TEUTONS WANT CLEAR PATH FOR WAR IN HOLLAND

Ultimatum Includes Privilege of Transit on Canals and Railways

London, April 24.-The German ultimatum, according to advices re-ceived in London, demands the right of transit not only for civilian supplies and of sand and gravel through Holland, but also for war materials The privilege of transit is asked not only on the Dutch canals but also

on the railways.

Germany has never before made any claim of the right of transit for

any claim of the right of transit for avowed war materials and the yield-ing of Holland on this point would be equivalent to the abandonment of Dutch neutrality.

Relations between Germany and Holland still are discussed in dis-patches from Holland with the sug-gestion that the situation is extreme-ly serious.

gestion that the situation is extremely serious.

The sand and gravel questions takes a prominent place in all the reports, but some of the correspondents write of several others. The correspondent of the Times at The Hague mentions among other things the reported demand that Holland shall guarantee to Germany a supply of raw materials immediately after the war while a certain quantity of Dutch tonnage is demanded for the same period.

It is further suggested, the Times adds, that the Germans expect to be able to force Holland to accept such conditions as would virtually competite entente allies to formally occupy the Dutch colonies, which would throw Holland computerly into

upy the Dutch colonies, which would throw Holland completely into

Lafayette Flying Corps

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite to impart color and a youthful appearance to the hair. It is not intended for the cure, mitigation or prevention of disease.—Adv.

front for several days, following the casing of their pressure on the Flanders front, but the preliminary intensive bombardment was of comparatively short duration. The drumfire began early to-day, followed shortly by the advance of the infentry.

fentry.

What apparently was intended as a surprise blow without notable artillery preparation was launched by the Germans at dusk last evening northwest of Albert. The British were on the alert, however, and met the advance with a hail of rifle and machine-gun fire, driving back the enemy.

Masses Mowed Down
London, April 24.—The attack delivered late yesterday by the Germans northwest of Albert was in the
region of Aveluy wood, Reuter's correspondent at British headquarters
reports. The Germans left their
trenches after an intense artillery
barrage and advanced in massed
waves. When they encountered the
British and machine gun fire, how
ever, they retired without endeavoring to come to close action.

PALE FACES Carter's Iron Pills

For U.S.

Like the U.S. Consular Service, there is an organization which maintains a loyal, patriotic, a country-serving American in every important city in the world.

These Americans have direct access to ministers, officials and community leaders,-to all chief sources of information.

Their duty is to report back every happening that may interest or affect you and America.

You never hear the names of these men. The only sign of their eternal vigilance is the modest credit line in the newspaper you read: "by Associated Press."

Nothing happens in all the world but an Associated Press man is there to see it, report it and interpret it Commonly this is called newsgathering.

But, truly, isn't it something more?
