

"The tears live in an onion
that should water this sorrow."
—Shakespeare

Afterwhile

This so called man, who is attempting to conquer worlds with brutishness and barbarism, will be marooned on the island of his own failure — isolated, whether he be in hell or still on earth — and alone with empty ambitions of Prussianism, ugly, world despised greed, and the torturing memories of needless, fiendish destruction, merciless murdering — not only of enemies and their helpless families, but of GERMANS AND GERMANY.

To exile and "draw" the power of this champion brute, who has been preparing for years to undo the centuries of progress and civilization, we must out-fight him, out-man him and properly equip our men with every modern means that brains can invent and produce—and THE JOB MUST BE DONE QUICKLY AND WELL—this necessitates cash and lots of it — the American people — who are the government — must supply it.

Every Liberty Bond Sold Brings America That Much Nearer to a Successful Finish

Unless it is absolutely impossible for you to afford a bond,
don't let a single tomorrow find you without one.
