Men Welcome Mother's Friend

A Duty that Every Man Owes to Those who Perpetuate the Race.

It is just as important that men should know of proper methods in advance of motherhood. Suffering, pain and distress incident to childbirth can be avoided by having at hand a bottle of the time-honored preparation, Mother's Friend. This is a penetrating external application that relieves the tension upon the muscles and enables them to expand without painful strain upon the ligaments and nerves.

Thousands of women for over half a century who have used Mother's Friend tell how they entirely avoided nervous spells and nausea and preserved a bright, happy disposition that reflects wonderfully upon the character and disposition of the little one soon to open its eyes in bewilderment at the joy of his arrival.

By regular use of Mother's Friend during the period the muscles are made and kept pliable and elastic. They expand easier when baby arrives, and pain and danger at the crisis is naturally less.

You can obtain Mother's Friend at any drug store. It is for external use only, is absolutely safe and wonderfully effective. Write to the Bradfield Regulator Co., Lamar Bldg., Atlanta, Ga., for their valuable and instructive "Motherhood Book" of guidance for expectant mothers, and remember to get a bottle of Mother's Friend at the druggist's today. It is the greatest kind of help to nature in the glorious work to be performed.
