Nation Determined Integrity of Greek Territory Shall Be Preserved in Treaty

By Associated Press Athens, Thursday, April 25.-The Patris publishes a statement attrito the American minister, Garret Droppers, to the effect that the government and people of the United States are determined that the integrity of Greek territory shall be preserved and that the rights of the nation shall be secured in the peace negotiations.

Washington, April 26 .- The promise given the Greek people by Minister Droppers at Athens that the United States will see that Greek in tegrity is preserved, although officials would not say so, was believed here to have been made at the in stance of this government. Officials indicated that it had been given the fullest approval.

The statement was in line with President Wilson utterances regard-ing the rights of small nations and with the announced policy of this government. Officials would not comment on the report that the Greeks have questioned the silence of the live and the silence of the silence of the silence.

Greeks have questioned the silence of the allies regarding the future of Greece, but it is known they attach no importance to the subject.

President Wilson has assured the Greek people that the United States is determined to give its fullest measure of support to Greece and that the country's rights shall be presented in any final peace negotiations.

The President's attitude became known to-day when the State Department gave out the text of a statement cabled to Minister Droppers at Athens which was given out for publication in the Creek capital.

order.

On the Job

Following the noonday luncheon of Thursday, when it was seen that over \$975,000 was needed to complete Harrisburg's quota, the members of the Liberty Loan teams and executive committee got on the job as they had never been on before. They were determined that the city would not be caught napping at the close of the campaign it had mapped out for itself. As a result of the efforts of the hundreds of volunteer bond salesmen the total for the city, it will be seen, surpassed the \$975,000 needed to "go over."

American Flags: No Bonds On the Job

541

American Flags; No Bonds American Flags; No Bonds
Members of the various teams today declared that in scores of Harrisburg blocks there are to be found
houses which very proudly display in
their front windows highly-colored
American flags, but there are no Liberty Loan flags alongside many of
them—and in hundreds of instances
there are no Red Cross posters, either.

"What's the idea?" asked one of the indignant team men this morn-ing. "What right has any citizen of Harrisburg to display an American flag when he hasn't done a thing to back that flag?

Employe Hears Something

Employe Hears Something
One of the managers of a large
Harrisburg business plant to-day
handed an ultimatum to an employe
who said he didn't think he wanted
a Liberty Bond.
"All right," he said, "Saturday is
your payday. If you aren't American enough to buy Liberty Bonds
you aren't American enough to
work for me; and so you needn't report after Saturday—unless you see
your way clear to prove that you are
an American."

an American."

Auto Buyer Investigated

Another large industrial plant in the city has a man working for it who refused late last week to buy a Liberty Bond because he couldn't afford it; but when he drove to work one day this week driving an automobile which cost him in the neighborhood of \$1,600 his employers came to the conclusion that there was something wrong; and so they are looking up the man's record.

*Williamstown Still Going

Reports from Williamstown this morning tell that the town is still buying bonds heavily. Its total is now \$101,000, far beyond its allotment.

Holland Puts Embargo

on Material Needed by U.S.

Washington, April 26.—Holland has placed an embargo on the exportation from the Dutch East Indies of tin, tin ore, cinchona bark, quinine, quinine salts and kapok, all of which are needed in large quantities by the United States for war purposes.

ties by the United States for war purposes.

Official notification of the embargo effective April 22, was received today and caused much pertubation. Officials declined to indicate the probable reasons but in some quarters it was suggested the measure was in retaliation for the American requisitioning of Dutch ships. Elsewhere it was thought to have been prompted by the critical situation in which Holland finds herself with Germany.

Letter Carrier's Good Work
The letter carriers of the city did excellent work as volunteer salesmen yesterday. They spent all afternoon and evening taking subscriptions and were particularly effective in the foreign quarters, where their uniforms win them, respect and the rect representatives of the government. Some of the foreign-born residents subscribed heavily for bonds, giving the workers postal savings recipts instead of cash. Letter Carrier's Good Work The enormous losses inflicted on the Germans by the British have caused General Ludendorf to change his tactics. He has ordered that no more massed attacks be made by German troops. He issued the following order, dated March 30: "The idea of forcing success by the employment of masses must be abolished absolutely. It only leads to unnecessary losses. The effective use of weapons, not of numbers, gives the decision."
