SALE OF LIBERTY BONDS TO CONTINUE

[Continued from First Page.]

week ends. Approximately \$10,000 worth of sales were recorded by the boys in khaki Saturday.

The counties are going strong and when the final reports come in from the outlying districts the chairman of the drive are prepared to meet a few surprises in the way of over-subscriptions on the part of the small towns and townships in the district. Perry and Cumberland counties are already well over their quotas in the amount of subscriptions they have turned in.

Juniata county, which fell short on its quota, set itself to work in earnest Saturday, and with a magnificent spurt moved itself \$15,000 nearer its goal of \$300,000. This morning's work on the part of the workers in Juniata county is expected to raise the subscriptions there still more. During the remainder of the week Liberty Bond experts will comb the county for stray dollars, and the chairman of the Harrisburg district hopes to announce next Saturday night that the county went over the top with the rest of the district.

Harrisburg is still buying Liberty Bonds and there will be no letup in the drive here. "Don't buy just enough to say you've bought, but buy!" is the slogan Liberty Bond salesmen are using, and it is fetching in the dollars. Liberty Bond children in the city are confident that Harrisburg will over-subscribe its quota by almost \$100,000 before the end of the week.

PENNSYLVANIA GIVES 83,716

But Total Under the Draft Is by No Means All That It Has Furnished Nation

Including the men called to go to National Army camps this week and in the movements scheduled for early in May at various barracks and Fort Thomas, Pennsylvania has furnished the drive. They worked in the packing room of the supply department at Liberty Bond headquarters, on the job continuously and cheerfully, and working entirely without pay. The two boys who thus received the commendation of the committee for the way they are doing their bit are John McClintock, 628 Peffer street, and R. W. Crist, 257 North street.

It is thought that the total for the district is \$6,700,000 or more, and for the city \$3,600,000, or more. Official returns for Harrisburg will be available until Wednesday at the earliest.

Two large subscriptions given Andrew Redmond, one of the workers who canvassed the city last week, were made at the Kelly High Company's quarters. The first company subscribed \$1,000 and the West End Social Club, an organization of men belonging to the fire company, subscribed \$1,300.

Dry Federation in Star Chamber Work

A little group of "dry" bosses, who assume to speak for the many thousands of temperance people in Pennsylvania, held to-day a star chamber session in an upstairs room in the Y. M. C. A. and made the announcement that J. Henry O'Neil, Republican, and Joseph J. Guffey, Democrat, had been endorsed by them for governor "insofar as they have been endorsed by local organizations." When it was asked what had been done about William C. Sprout, who has emphatically declared in favor of Sprout nothing was done.

Those present were ex-Judge W. E. Porter, New Castle; Dr. C. P. Swift, Philadelphia; Dr. John Royal Harris, Harrisburg; Dr. B. E. P. Prugh, Harrisburg; John W. Vicker, Man, Bellevue, and Mrs. Lech Cobb, Marion, Emporium; Father J. J. Curran, of Wilkes-Barre, did not attend.

The meeting was still fusing over lieutenant governor into this afternoon and had not endorsed any legislative candidates. It is said some of the men would like to endorse John R. K. Scott if they thought it would get the Vares for O'Neil.

It is well known that some of the influential Anti-Saloon League leaders and other temperance workers regard the Dry Federation as an O'Neil organization and will not pay any attention to what it does in the way of endorsements. The federation endorsed O'Neil last February and passed up every one else. To-day it did it again to show the reason for its existence.

STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

If you have a bad taste in your mouth, tongue coated, appetite poor, lazy, don't-care feeling, no ambition or energy, troubled with undigested foods, you should take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without gripping, cramps or pain.

Take one or two at bedtime for quick relief, so you can eat what you like. At 10c and 25c per box. All druggists.

How can it be otherwise?

Mr. Schwab says he wants all the steel possible to be shipped to Hog Island so that Uncle Sam will get boats rapidly to transport soldiers to France.

The big steel man knows what he is talking about and we certainly agree with the men who want to speed up the war work to top-notch efficiency.

But this is what we are thinking about at this time; the steel cannot go to two places. If it goes into boats it cannot go into street car equipment. Badly as we need the materials we are glad to see it go into boats.

But there's a serious consequence to us—to you, too. Cars cannot be repaired. New cars cannot be had. Tracks cannot be had. Motors cannot be had. And what little materials we are fortunate in getting costs much more.

The natural result of this scarcity of materials is that the cost of the street car business has taken a big jump. And we cannot see

anything ahead that will hold it from going still higher.

And we cannot stop buying materials simply because the cost has gone up; for we've got to keep things going.

The street car business is the same as any other in this respect; that you cannot give as much of the same quality as you used to for the same price.

You've got to get more for what you give or give less for what you get. Simple logic?

A merchant who sells goods at the same price he did a year ago, has either hoarded or is headed for the bankruptcy court. The street car business that doesn't get enough receipts to cover the cost of doing business is headed for the same court.

We want to give good service and we are doing everything we can under the war circumstances to give it. While costs have gone up the fare has not.

An engine that translates gas into a new kind of thrilling power through the "Hot-Spot" and "Ram's-Horn" Manifold—Chalmers devices

Power to take a hill, and power to pass the other fellow are still claimed by many car makers; but here's a car that puts such expressions into the dark ages of automobiling. It is the current Chalmers, equipped with the famous "Hot-Spot" and "Ram's-Horn" Manifold, which wrings from gas more power than was ever taken out of gas before. But not merely brutal power (for that it has), but a newer kind, a softness of power that is as thrilling to bear witness to as the technique of a great musician.

Accomplished how? By those two great devices: a "Hot-Spot", which fairly cooks the gas, then "cracks it up fine as a powder", and the "Ram's-Horn" Manifold which "sets it down" in the combustion chambers with celerity and without disturbance.

So that when the spark touches it off, it gives nothing but power; soft, harnessed, controlled power that you will never forget once you have had its feel.
