

"NIGHT TURN" IN TRACTORS' WORK

Some of the Machines Have to Be Operated Under Glare of Headlights Nowadays

"Night turn" on tractors plowing fields on farms and plots for "war gardens" is no joke in the Harrisburg district, according to reports which have been coming here. The State Department of Agriculture has about thirty-five tractors out plowing fields under the arrangements made by the State Defense Commission and if it could obtain deliveries it would buy twenty more. The demand for tractors, however, seems to be so great that the agents will be unable to deliver promptly. In the State Capital district there have been three tractors operating on "trout" and as demonstrations while plowing up the regular state fee, but the demands have

been so great that two shifts of men have had to be formed. The same is true in some eastern counties where the demands are of such a nature that wherever men could be secured the tractors were kept going on full schedule. Some tractors either privately or community owned have been reported as working until midnight in various places, chiefly on plots that are within towns and lighted from streets. There is considerable rivalry between state and privately owned tractors for the largest acreage in a day. State Big Subscriber—The State of Pennsylvania has put in the neighborhood of \$300,000 into the Third Liberty Loan, although the figures will not be officially announced for some time. It already had more than that invested in the first two loans. The State Workmen's Insurance Fund, which put \$200,000 into the first two loans bought \$175,000 of the Third; the State Fire Insurance Fund put \$100,000 into the Third and the State Board of Education put another \$25,000 into the bonds. It had previously invested funds of the State Permanent School Fund in Uncle Sam's securities. Other funds have made like investments. Sixteen Wanted—Sixteen vacancies now exist in the four troops of the State Police because of operation of the draft law and the expiration of terms of enlistment and efforts

I know something that will clear your skin

"When my complexion was so bad, rough and pimply, I was ashamed that I never had any skin. I imagined that people avoided me—perhaps they did. At the regular use of Resinol Ointment—with a little Resinol Ointment just at first—has given me such clear, healthy skin. I wish you'd try it!"

Resinol

Resinol Ointment and Resinol Soap also clear away dandruff and keep the hair healthy and attractant. For further information, write to Dept. 2-R, Resinol, Baltimore, Md.

Strive To Have Healthy Skin

Next time you are in a gathering of women note the different conditions apparent in complexion. You will see some filled with blackheads, some dry and rough, some smooth and greasy, some smeared with rouge, some streaked with heavy metallic powders and once in a while you will see one that is a demonstration of intelligence from every point of view. The color is rosy, the skin is clear and smooth, the pores are small and open, the powder does not show on the firm vigorous skin. Every woman can have a good complexion if she will only use a little Resinol. If you would acquire beauty, the beauty of perfect health, you must replenish your worn-out nerves with lecitin, Nature's own nerve restorer, and put into your food the invigorating iron which Nature intended it to have for health. In most of the modern foods, cereals and other vitalizing elements have been largely eliminated. Yet to be healthy and beautiful the system must have them. They are found in Bio-feren, not only in proper proportions to restore weakened vitality but in such form as the system can best assimilate them. A treatment of lecitin and iron phosphate as combined in Bio-feren creates the appetite, aids nutrition and invigorates the patient. And Bio-feren in its pellet form is easy and palatable to take—no liquid

Iron discoloration of the teeth, no unpleasant taste. There is no secret or mystery about Bio-feren. Doctors prescribe it regularly because they know exactly what it contains as well as what it will do and they know they could not formulate a better upbuilding tonic. The action of Bio-feren on the system is so beneficial, we are so sure of its giving you positive health and vigor, providing, of course, there is no serious, chronic ailment such as cancer, tuberculosis, etc., but we only sell it on the condition that you agree to return the empty package and accept a refund of your money, unless you are entirely satisfied. There is no use waiting for health and beauty. It is better to do things today than tomorrow. Go to your physician today—right now—he will advise Bio-feren. That's start taking it at once as he advises or as directions on the package call for. We guarantee to protect your money. Interesting booklet may be had for the asking. Large package \$1.00 at all leading druggists or direct if your druggist can not supply you. The Sentinel Remedies Co., Inc., Cincinnati, Ohio.

Congratulations! Old Harrisburg Congratulations! Dauphin County And All Other Surrounding Counties Congratulations! Mr. Patterson--Mr. Sites-- Division Commanders---Team Captains And Workers

You have done a noble work — with characteristic Harrisburg "pep" — overflowing enthusiasm and energy, the big job of securing \$3,500,000 for Uncle Sam was put across—and easily too. Our boys will go the very limit — and we'll make our dollars do the same.

THE GLOBE

At the meeting of the Red Men lodge held on Saturday evening the lodge decided to subscribe \$300 in the Third Liberty Loan.

to recruit the force up to the full strength will be made during the coming week. In a number of instances men who had served in the Army and Navy went into military service when their terms expired. The recruits will be called from men on the waiting list. The military service has made big changes in the personnel of the force in the last year and if the draft continues many more will occur. More men are now in the training at the barracks than ever before. A successor to Captain Leon F. Pletcher of the Potomac troops, who becomes assistant superintendent, will be chosen after an examination conducted here next week among the lieutenants by George F. Lamb, the superintendent. Not Favored—Here—Suggestions that the state oleomargarine law be changed by the next Legislature so state administrations have opposed manifested here on the ground that it would be letting down the bars on the business which is now regulated and the sale in the hands of responsible firms, which is materially different than a few years ago. James Foust, the Dairy and Food Commissioner, is opposed to the change. So are the farmers and the dairy interests.

Rush of Complaints—Twenty-three complaints, the largest number ever filed in a single day except in jitney cases, before the Public Service Commission were entered to-day. Nineteen were against the new rates of the Luzerne County Gas and Electric Company, which will become effective May 1. In the latter are the boroughs of Luzerne, Wyoming and Shickleshiny.

The City of Scranton brought complaint against the 6-cent fare of the Scranton and Elmhurst Traction Company, charging that it violated a franchise ordinance, while Northampton and North Catsaqua filed complaint against the rates and service of the Clear Springs Water Company. The Wilkes-Barre and Scranton Express Company charged that the Suburban Express Company, a Scranton concern, was operating without a public service certificate.

No Session—The Public Service Commission to-day called its executive session and will begin hearings to-morrow.

Killed on Duty—State Police headquarters to-day heard that Andrew Czapp, a State policeman living at Swoyersville, had been shot while in the line of duty at Homer City. An inquiry is being made.

The Supreme Court—The situation growing out of the death of Justice Mestrez so soon after that of Justice Potter, is unparalleled in state history. The Governor will have two justices to name to serve until the first Monday of January, and as the primary petition period is over there will be no nominations made, but any candidates will be free to file for the November election, when two justices must be elected. The nomination papers will be received until five days before the election. Judge Kunkel being given mention all over the state.

Close the Work—The Secretary of the Commonwealth's Department to-day completed certifying the nominating petitions to the counties. The work has been in progress for three days.

Reagan on Job—Irwin E. Reagan, the new assistant State Librarian, to-day assumed his duties.

Up \$4,000—The bond subscription list of the State Department of Health was boosted to-day by a subscription of \$4,000 from one of the engineers.

Reduced Mileage Book Rates to Be Stopped

Washington, April 29.—Mileage books, as sold by the railroad companies at a rate below that charged for single fares, are to be abolished by the Railroad Administration. No formal action has been taken, but it is recognized that the Government in its operation of railroads cannot discriminate in favor of those who purchase transportation by the railroad and against the man who buys single-trip tickets. The effect will be an increase of rates to those who herebefore traveled on mileage books. Railroad operators, it is known, have been directed to issue mileage books when those outstanding are exhausted and pending that time, the Railroad Administration is figuring upon what action can be taken to meet the needs and demands of travelers who are purchasing at wholesale, even if there is no reduction in rates.
