

DISTRICT FORGES AHEAD IN DRIVE FOR LOAN ISSUE

Workers Elated Today at the Splendid Patriotism of Men in the Country Districts

District, county and city Liberty Bond chairmen are elated over the results the campaign workers are attaining during the last days of the drive. With more than three days in which to work, Harrisburg loan chairmen hope to place a Liberty Loan tag in every home and a button on every wage earner.

At the Liberty Loan headquarters this morning, J. Clyde Myton, secretary of the district, was chuckling quietly over a letter which came in the morning mail.

Somebody said Juniata county won't go over the top, he said, holding up the letter. "Look at that, if you don't think it will."

Coming Along Fast Until this morning the Juniata workers had subscribed \$23,500 toward their quota of \$300,000. This is almost \$50,000 in the two days they have been working this week.

was announced as over the top this morning. Perry county announced total sales this morning of \$482,200. Its quota was \$400,000 and it has promised to report \$450,000 next Saturday.

Small towns in the four counties sent in favorable returns this morning which show how much the districts will be boosted over its quota.

Splendid Showings Other small towns which announced creditable totals and show how the wind blows out in the county districts are:

Millerstown, \$29,300. Madison township, \$1,250. Center township, \$4,000. Carroll township, \$5,000. Tyrone township, \$3,200.

In the city the big industrial plants are still subscribing bonds at a rate that will make Harrisburg workers forget what that quota was anyway when the totals are announced.

STATE MUSIC DAY IS PROCLAIMED

Governor Calls Upon Young People to Sing Patriotic Songs on May 17

Schools of Pennsylvania were today called upon by Governor Brumbaugh to observe the afternoon of Friday, May 17, as "Pennsylvania Music Day."

Whereas, The loyalty of a people is promoted by song and by the marching of singing groups, and whereas, Pennsylvania, loyal from the days of Independence Hall and Valley Forge, must always be loyal to national purpose, and

Whereas, This state has produced more eminent musical composers, song writers and musicians than any other state, thus giving us the distinction of being first among the states in musical attainments, and has recently by public proclamation made the initial move for a nationwide activity to be known as marching clubs of singing souls, whose duty it is by song and march to arouse a great national unity of spirit for God and our Country.

Now, Therefore, I, Martin G. Brumbaugh, Governor of the Commonwealth of Pennsylvania, greatly impressed with the value of school and community singing, and exceedingly desirous of bringing to the attention of our citizenry the commanding position of Pennsylvania in musical endeavor, do hereby call upon and urge all our schools to observe the afternoon of May 17, 1918, as

Pennsylvania Music Day Upon this occasion, following a program to be issued by the State Board of Public Education, and in the presence of invited citizens, let all the children in all our schools unite in singing songs and hymns composed by Pennsylvanians, or set to music composed by Pennsylvanians. Let a closing number of this exercise be a public procession of singing children through the streets or the ways of men near the schools.

TURKEYS FEWER IN PENNSYLVANIA

State Department of Agriculture Calls Attention to Chances to Increase

Warning was given today by the bulletin of the State Department of Agriculture that the domestic turkey is disappearing in Pennsylvania and that if steps are not taken to raise more of the great Thanksgiving day bird that the day will be at hand when the November holiday will no longer have it as the chief feature.

The Department is also calling upon farmers generally to stop erosion of soil as a war measure. It is pointed out that heavy loss is occasioned among farmers every year by washing away of valuable soil and that the gullies which are appearing in fields in the older farming sections of the state could be filled up, the field cut into belts of tilled soil and sod and fences removed. The bulletin makes an attack upon fences as breeding place for pests and weeds and wasters of soil.
