HUN ATTACK ON AMERICAN LINE COSTLY FAILURE

Marked Bravery Displayed by Yankees in Repulsing Three Battalions

With the French Army in France, May 2.—A heavy German attack launched yesterday against the Americans in the vicinity of Villers-Bretonneux, was repulsed with heavy losses for the enemy.

The German preliminary bombardment lasted two hours and then the infantry rushed forward, only to be driven back, leaving large numbers of dead on the ground in front of the American lines.

The German bombardment opened at 5 o'clock in the afternoon and was directed especially against the Americans, who were supported on the north and south by the French.

Washington, May 2.—A glowing tribute is paid the American soldiers in France by a French officer in a letter published yesterday in the Paris Temps. The letter, written to a friend, says:

"Infinitely interesting is our contact with the American troops. They have occupied the sector immediately beside ours. We have seen them at work, and it should be told and retold that they are marvelous.

"As for bravery, activity and discipline, they are marvelous. They are absolutely astonished on one morning of attack. The cannon, suddenly becoming furious, had just thrown me out of my bunk. No doubt about it, it was a Verdun attack. Taking time to seize my revolver, put on my helmet and gathered up several documents, I descended to the streets.

"Their artillery will be and already is of the first order. The officers are intelligent and filled with zeal, and the greater part of the service functions without a hitch. Too much praise can never be given their sanitary automobiles, swift, strong, comfortable, a veritable godsend to us."

CZECHS DESERT AUSTRIA TO JOIN ITALIAN ARMIES

Wild Political Conditions Reveal Plight of Dual Monarchy

London, May 2.—The correspondent of the Daily Mail at Italian headquarters says Bohemian troops are joining the Italians against Austria and that the first detachments already are on the Italian fighting line wearing the uniforms of the Italian soldiers.

Since the beginning of the war the Czechs, of which family the Bohemians are members, have shown a strong dislike to fighting in behalf of Austria, and in line with the Austrian troops. They have deserted at every favorable moment and at one time in the Russian campaign against Austria it was found impossible to employ the Czech and Bohemian troops, since they left their own ranks and fled to the enemy at every opportunity.

More recently in Austria-Hungary in the wild political conditions obtaining there, the Slavs and Czechs have been openly against the government, their leaders asserting that there is no opportunity for them to gain representation. They also have been active in stirring up strikes and strife in the country. The great strike of last winter in Austria-Hungary, in which hundreds of thousands laid down their tools resulted from the effects of the Slavs and Czechs.

Pope's Appeal For Peace Would Be in Vain; No Turning Back For U. S.

Washington, D. C., May 2.—If a new peace proposal from the Vatican is brought formally and officially before the Washington government it will become the raison d'etre for the most stinging arraignment of Germany that has been penned since the assassination of an Austrian Archduke gave Berlin an excuse for plunging all civilization into war.

The Washington government has no knowledge of any definite plans formulated by Pope Benedict to make a fresh appeal to the Entente allies and Central Powers. It would not surprise the American government if the rumors proved merely another example of Germany's clumsy propaganda methods.

If, however, Pope Benedict does appeal to the belligerent nations for a cessation of hostilities, the reply of the United States will give President Wilson a welcome opportunity to issue a resume of the war situation up to the present time and a frank explanation of America's intentions.

It goes without saying that Washington will give any communication from the Vatican the respectful hearing and careful consideration it demands. Every entente government deeply appreciates and sympathizes with the efforts which Pope Benedict has exerted to put a period to the greatest tragedy in history. It is entirely possible the venerable churchman may advance arguments which will merit detailed discussion.
