BROWN TO STAY IF O'NEIL WINS

Highway Commissioner Says He Wants Him to Be Attorney General

Declaration by J. Denny O'Neil in a speech near Scranton on Saturday, that he wants Attorney General Francis Shunk Brown to be his attorney general if he wins, has created much talk. Mr. Brown was urged to run for Governor but refused. If he should remain in politics, it would mean, in the minds of many here, that he would some day be our chief of the high office of two of his grandfathers' filled. Another view of the O'Neil declaration is that the crafty commissioner has taken the impression to get about that Mr. Brown, who is very close to the Vares, is to stay with him and that he would not do if the Vares were not for him.

Senator Penrose was bombarded from a dozen places in Lackawanna County by O'Neil, Brown and the Governor on Saturday. Mr. O'Neil closed his day with three meetings in Scranton and Dunmore, after having spoken at meetings in Peckville, Jermyan and Carbondale earlier in the day, renewing his promise to wage war "relentlessly on Penrose and Penroseism."

Speaking at the Carbondale meeting, Attorney General Brown charged Penrose and his adherents in the State Senate that they were at all times opposed to the enactment of the child labor law and the workmen's compensation law. Brown also accused the Penrose interests of attempting to play politics in the disbursement of the \$2,000,000 fund appropriated by the Legislature for the protection of Pennsylvania during the period of war. Senator Sprout, he accused, of being a party to the scheme.

Governor Brumbaugh and his party arrived in Scranton by motor from Wilkes-Barre and visited the scene of the fatal mine cave at Picton, and also stopped at Taylor, where several speeches were delivered. Governor Brumbaugh, O'Neil, Scott and Attorney General Brown were the speakers, all touching on the mine cave legislation.

Mr. O'Neil said: "I pledge you my word of honor that if elected Governor I will see that the people of the anthracite region get a square deal on your biggest and most vital issue—the mine cave problem. If I am elected I will have Frank Brown as my attorney general and we will go the limit to solve this problem for you," and the candidate's remarks won cheers. Governor Brumbaugh declared the last mine cave bill was smothered in committee by men in the Legislature who were enemies of the people of Lackawanna Valley. "They knew I would sign it if it came to my desk and that is why it fled in the hands of the committee," he said.

Marshal French Is Ireland's New Lord Lieutenant

London, May 6.—Field Marshal Viscount French has been appointed Lord Lieutenant of Ireland. The official announcement of the appointment of Field Marshal French as Lord Lieutenant and Edward Short, member of the House of Commons for Newcastle-on-Tyne, as Chief Secretary of Ireland, was issued last night.

Lord French succeeded Baron Wimborne, who was appointed Lord Lieutenant of Ireland in 1915, serving in May, 1916, and reappointed the following August to that post, after the Dublin revolt. In connection with that uprising Lord Wimborne gave testimony before the investigating commission, which later absolved him from responsibility for the outbreak.

Field Marshal Viscount French of Ypres was commander-in-chief of the British expeditionary forces in France and Belgium at the outbreak of the war, in August, 1914, until the end of 1915. In January, 1916, he was appointed commander-in-chief of the home forces. He is a Knight of the Most Illustrious Order of St. Patrick.

Viscount French, as commander-in-chief of the home forces since 1915, has made frequent visits to Ireland under the defense of the realm act. In previous agitations he has taken a chief part in restoring order. It was his guarantee in March, 1914, to the army officers in Ireland that they would not be required to serve against Ulster, which the Assembly, under the defense of the realm act, in previous agitations he has taken a chief part in restoring order.

Physicians the world over recommend the inside bath, claiming this is of vastly more importance than outside cleanliness, because the skin pores do not absorb impurities into the blood, causing ill health, while the pores in the ten yards of bowels do.

Men and women are urged to drink a glass of hot water with phosphate before breakfast keeps illness away.

This excellent, common-sense health measure being adopted by millions.

Those who wake up with a bad breath, coated tongue, nasty taste or have a dull, aching head, sallow complexion, acid stomach; others who are subject to indigestion, constipation, should obtain a quart of phosphate of lime from the drug store. This will cost very little but is sufficient to demonstrate the value of inside bathing. Those who continue it each morning are assured of pronounced results, both in regard to health and appearance.

Rug Suggestions For Prospective Buyers That Offer Money-Saving Opportunities

The public seldom sees the trade journals that tell of the constant rising rug market and increasing prices on all floor coverings and the immense curtailment in production. Every authority predicts the demand will exceed the supply. The Government has practically stopped all imports of such goods from Europe or Asia. Buyers from Canada are trying to buy without questioning price, because they feel the normal production will not be attained again until a long time after the war stops. Therefore, considering the demand there is for rugs, linoleum, carpets, and every kind of floor covering, you will find it very profitable to buy rugs now at these prices that cannot be duplicated for similar quality later. One look at the immense stock we carry will convince you that there is no better nor larger stock to select from, and most of it, fortunately, was purchased about a year ago before the war conditions became acute and caused prices to soar upward.
