

CITY TO AID IN GREAT DRIVE FOR SAVINGS STAMPS

Each Ward to Have House to House Canvass For Sale of Baby Bonds

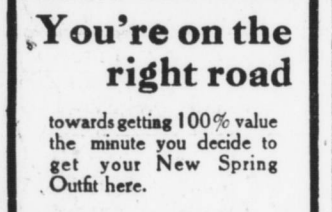

The aid of ministers, businessmen, boy and girl scouts and others will be enlisted in the sale of War Savings Stamps next week, when every resident of the county will be asked to purchase \$20 worth of Thrift Stamps during the year. The allotment for the county is \$3,000,000.

The following war captains were appointed yesterday to take charge of the campaign in the city. First ward, Charles H. Hunter; Second ward, Charles E. Pass;

Third ward, E. R. Sponser; Fourth ward, James M. Cameron; Fifth ward, Dr. J. W. Ellenberger; Sixth, J. Clyde Myron; Seventh, Herbert E. Sloan; Eighth, Stanley G. Jean;

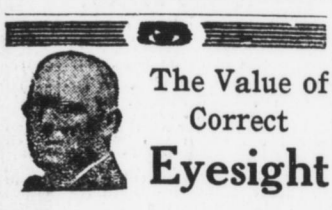

Ninth, George W. Bogar; Tenth, Edward I. Book; Eleventh, E. J. Stackpole; Twelfth, Fred L. Morgenthaler; Thirteenth, Dr. C. E. L. Keen; Fourteenth, Prof. C. A. Ellenberger, Riverside; Paxtang, J. H. Sheesley.

These team captains are to appoint committees for house-to-house canvass work. The campaign will be boosted by a mass meeting in the City Auditorium Saturday, sermons in the churches Sunday, a parade Monday morning, and a house-to-house canvass Monday, Tuesday and Wednesday. During the week banquets will be held. Saturday the Boy and Girl Scouts will see the Thrift Stamps in the streets.

You're on the right road towards getting 100% value the minute you decide to get your New Spring Outfit here.

We Clothe the Family on the Most Generous Terms. Come in and let us prove our claim—let us show you the advantages this store has to offer. Remember, you do not need the cash here.

36 N. 2nd St., cor. Walnut. The Value of Correct Eyesight

Faulty vision—an annoyance and serious handicap—eliminates many of the joys of life. Glasses—rightly fitted and adjusted—will save your eyes.

'BLUE BONNETS'—A New Fabric with New Features. 'Blue Bonnets' meets the needs of the woman who wants a beautiful, durable fabric that wears without wrinkling, repels dirt and launders perfectly.

Dr. Phillips, Painless Dentist. Absolutely No Pain. My latest improved appliances, including an oxygenated air apparatus, makes extracting and all dental work positively painless and is perfectly harmless. (Age no objection.)

HOPE TO EXCEED QUOTA IN BIG DRIVE

(Continued from First Page.)

of the city itself, Cumberland county towns on the river, and Perry county. Steelton and Middletown have chapters of their own. The balance of the county is in the Harrisburg district.

Many Meetings Planned. A number of meetings have been planned for the campaign. These are scheduled for:

May 13—Organization committee, Board of Trade building, when Rabbi Stephen Wise of New York will be the principal speaker.

May 14—Mass meeting, Chestnut street hall; admission will be by ticket. The principal speaker will be Miss Kathleen Burke, who was in Belgium as early as August 18, 1914, and remained there until the fall of Antwerp.

May 15—Industrial dinner meeting, Harrisburg Club.

May 20—Educational meeting, Chestnut street hall; speaker not announced; 1,000 seats reserved for workers.

May 22 and 23—Luncheon meetings at Chestnut street hall for Second division, composed of teams under Mrs. Marlin E. Olmsted, commander. There will be two grand divisions of workers—one of men and the other of women, with eight subdivisions in each—six teams in a subdivision, of 10 workers each. This is a total of 480 men, 480 women, exclusive of the commanders and sub-commanders.

The canvass of the district will be on the house-to-house plan, without cards.

Summary of Activity. The national Red Cross has issued the following summary, showing what the organization is accomplishing:

The American Red Cross is the largest and most efficient organization for the relief of suffering that the world has ever seen.

It is made up almost entirely of volunteer workers, the higher executives being, without exception, men accustomed to large affairs, who are giving their services without pay.

It is supported entirely by its membership fees and by voluntary contributions.

It is today bringing relief to suffering humanity, both military and civil, in every War-torn allied country.

It plans to-morrow to help in the work of restoration throughout the world.

It feeds and clothes entire populations in times of great calamity. It is there to help your soldier boy in his time of need.

In its thousands of workers, its tremendous stores and smooth-running transportation facilities, it is a perfect example of America's genius for organization of America's generosity, and of America's will to Win the War.

Congress authorizes it. President Wilson heads it. The War Department audits its accounts.

Your Army, your Navy and your Allies enthusiastically endorse it. Twenty-two million Americans have joined it.

Federation of Labor Men to Hold Noon Meeting

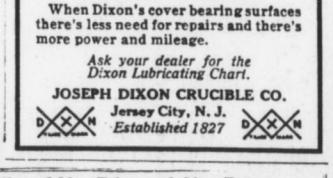

Campaigners who are here organizing railroad shoppens are showing increased activity. Meetings are being held daily by American Federation of Labor representatives. To-morrow at noon Lucknow shoppens will gather on the Lucknow golf links for a big session.

Speeches will be made and reports presented on the progress of the work.

Engine and Wheels Aren't All

It takes more than tires and gas to keep a car running. Friction in bearings must be overcome to make a car run regularly and right. There's one common sense way to do it—Dixon's.

When Dixon's cover bearing surfaces there's less need for repairs and there's more power and mileage. Ask your dealer for the Dixon Lubricating Chart. JOSEPH DIXON CRUCIBLE CO. Jersey City, N. J. Established 1827

MUTUAL ASSOCIATION TO MEET. The monthly meeting of Local Assembly, No. 4, Mutual Beneficial Association of Pennsylvania Railroad Employees, Incorporated, will be held in Odd Fellows' Hall, 504 North Second street, to-morrow evening at 8 o'clock. All applicants whose applications were presented last meeting have been asked to be examined by Medical Examiner Dr. Dickinson, 228 North Second street, so as to be obligated at the meeting to-morrow night.

DR. ROBERT BAGNELL. Arrangements for the trip have just been completed by a special committee of Grace Church. On the committee are W. P. Starkey, chairman; Z. Wallace, secretary; Dr. Bagnell, Charles W. Burnett and J. Horace McFarland. They have agreed to underwrite the expense and Dr. Bagnell will travel with the

BORGLUM SAYS GROUP HALTED PLANE PROBER

Officials He Approached Tried to Mislead and Keep Truth From Him

Washington, May 7.—Upon learning of the publication of letters and messages addressed to him by President Wilson in connection with the aircraft program, Gutson Borglum, last night gave out the text of an open letter to the President in which he expressed the hope that the "camouflage deliberately planned by a group of men entrusted with a great arm of our military machine has come to an end," but added that the chart of reconstruction of the aviation organization filled him "with definite alarm."

Mr. Borglum said he had noticed the publicity given his correspondence with something more than a shock and that he could hardly interpret it as friendly. In the course of a long letter he declared that "the aero department is full of profiting and that hundreds of millions have gone," and that when he commenced his investigation from an office in the War Department building assigned to him, his work was systematically blocked, to the extent even of threatening witnesses. He named in this connection Stanley King, assigned as an aid to his work, and asserted that Major General Squier, chief of the signal corps, "acted in like manner."

"Says Aid in Probe Was Withheld. Every official that I approached and from whom I had the right to receive aid and courtesy entered into a general conspiracy to deceive, to mislead, and to prevent learning the truth about the aeronautic situation," the letter continued. "I do not presume to give the reason for this."

Remarking that Colonel E. A. Deeds, an Army member of the aircraft board, has said publicly that 1,200 American planes are flying in France, the sculptor asserts, that in fact to-day there are less than 20 planes.

"I have said the aero department is full of profiteering," the letter said, "that hundreds of millions have gone, that factories have been created where there were no factories necessary, and to the extent of fifty millions given to men who had neither rhyme nor reason for the remotest connection with the emergency of airplane production, but who had the pull of Deeds and who are still floundering in their ignorance and incompetency, unable and incapable of fulfilling their contracts, still drawing under the cost plus system on the treasury of the nation."

"I have said that aeronautic men have been snubbed and ignored, and that factories that knew the art of airplane building are even at this writing without the slightest consideration by the group who dealt out the colossal funds for their own purpose."

Charges Alarm Borglum. Liberty motors were developed for the purpose of monopolizing the engine making business in the country, Borglum asserted and he concluded:

"Charges more grievous could not have been made against a department or a group of men. Seven or eight investigations have been made besides my own and there is no indication of anything being done. The camouflage deliberately planned by a group of men entrusted with a great arm of our military machine has come to an end, at least I hope it has come to an end, but the chart of reconstruction which I saw the day before yesterday fills me with definite alarm."

Mr. Borglum also gave out a copy of a letter to President Wilson, dated January 21, transmitting his first report, which complained of attempts to block his investigation by officials, but asserted that he had been able to connect "the broken links of a chain of dishonesty and disorder that runs throughout our production department."

Authority of the Public Safety Commission. Dr. Bagnell is to make his headquarters at the offices of American University Union in Paris and will go from there to the front line trenches and to the numerous Red Cross, Y. M. C. A. and K. O. C. cantonments. He will also pay as much attention to living and moral conditions for the men in the rural communities as in the big cities.

As Dr. Bagnell's ost important matter is to discover conditions over a wide area, he will not have much time to look up Harrisburg boys in France. He will, however, make an attempt to see as many of them as possible when at the camps and at the front line.

Prejudice Against English Not Based on Fact, Writes Harrisburg Boy in France

"The proper and principal bolster of France and England is food; food in large quantities. Consequently I cannot make the point strong enough, that is, that our people should be extremely conservative in the use of all solid and portable foods."

So writes Gordon C. Werner, a former Harrisburg boy from the front in Picardy. Werner was in the class of 1917 at the Technical High School. He is now in active service on the French front, and is a son of George A. Werner, city school director. In a letter to his brother, George A. Werner, Jr., 240 Emerald street, he discusses the present situation:

"People who grumble and who are evasive about the food restrictions 'know not what they do.' That old, worn-out prejudice against England is always uppermost in these people's minds. I wish we could rid ourselves of that nonsense once and for all time. I wish we could consider that England at the time of our trouble was under a German king; a king who spoke little but German. No people could have been more considerate of us than were the English last September. Crowns were congregated at every station from the north to the south. In fact, the people were universal in their desire to make our stay as pleasant as possible, from the King and Queen who reviewed us, to the most obscure individual on the island. That unwarranted prejudice, characteristic of we bigoted Americans, finds its root in the public schools. A nation must have some traditional likes and dislikes as an heritage from the other days and in our case, England has been the villain and France the guardian spirit. But thanks to this trouble, Americans have got to see England as England and Englishmen as they really are, wholehearted, impulsive and generous. I hope and believe that this war will break down barriers and establish a closer understanding among English-speaking peoples."

The Rengo Belt Corset Is Designed For Medium and Large Figures

One of the most comfortable corsets made to-day, we believe, is the Rengo Belt. It is especially designed for medium and large figures, the Rengo Belt being one of its most salient features thoroughly strengthening and reinforcing the abdomen. And no matter how hard its usage may be it retains its shapeliness long after you are willing to discard it.

Broken steels are often a cause of great discomfort in corseting but in the Rengo Belt its double watch spring steels guarantee it against breaking and rusting.

A Demonstration Now Being Conducted By Miss Anderson, a Corset Expert

Miss Anderson has visited Harrisburg on other occasions and the same splendid corset service which she has rendered to hundreds of women in this vicinity she will be glad to render to you.

May we expect your visit to-morrow in the Corset Section? Dives, Pomeroy & Stewart, Second Floor.
