

400 DOCTORS IS U. S. CALL FOR PENNSYLVANIA

Quota to Be Divided Among Counties According to Conditions

Four hundred more physicians must be enrolled in the medical reserve corps before July 1 as Pennsylvania's quota in the new order for 5000 additional army doctors called for by Surgeon General Gorgas.

The meeting of the state committee of the general medical board of the Council of National Defense came to a close in Washington last Saturday night. The next morning the Pennsylvania delegation met with the Council of National Defense and discussed the method by which its quota could be filled.

"The central state committee will divide the state's quota among the counties," said Dr. Ross V. Patterson, who is a member of the state committee. "Each county quota will be based upon a careful investigation of conditions in that county, namely, the number of practitioners, the number who are qualified to engage in army medical work, and the rate of morbidity. For example, if the rate of morbidity in any community is 2.6 per cent, it will be felt that the doctors there can be better spared than from a community in which the rate is higher.

Doctors in State Indexed

The 11,502 doctors in Pennsylvania are indexed exhaustively, as to age, experience, specialties, dependents, condition of health and whether connected with hospitals, teaching in institutions or holding public offices. From these

records the executive secretary of the committee will be able to indicate to any chairman of a county committee the particular men who might be expected to offer themselves. The chairman will make a personal decision and the men will be asked to join. The final decision rests with them. Or the various county chairmen may simply hold meetings and ask for volunteers and decide upon the men who present themselves. The campaign will be an intensive one. The doctors who for good reasons have refrained from enlisting—the numbers who have said to us "we're ready to go when we're needed" will be the ones the time has come when they are urgently wanted.

"No pressure will be brought to bear upon any one. Compulsion will not be necessary.

"Pennsylvania has already enlisted 2435 doctors out of a total State number of 11,502, or 21.3 per cent. The new quota calling for 400 men will take more than 4 per cent of the remaining doctors of the state. But they will be forthcoming."

SLOVENIANS ARE MUTINOUS; CLASH AND BLOODSHED

Infuriated Women Take Part in a Conflict at Railway Station

London, May 7.—Unrest in the Slovenian districts of Austria is growing daily and mutiny is spreading with great rapidity. Reuters Limited, announced yesterday, it had learned from a Serbian source. A recent conflict between Germans and Slovenians ended in bloodshed.

The clash between Germans and Slovenians occurred at the Windschgraetz railway station. Slovenian women became greatly infuriated and took part in the fighting. Several of the wounded combatants were taken to a hospital.

Further information has been received regarding the recent encounter between Germans and Slovenians at St. Jean. The gathering there was convoked by Slovenian deputies, to spread among the peasants sentiment in favor of separation from Austria, and also to increase the feeling against the Germans. The speakers urged the Slovenians to free themselves forcibly from the German yoke, and the chairman of the Jugo Slav Club asked that all fight for an independent Slav state. The Slovenians cheered for it and the Germans responded with cheers for the Hapsburgs. This led to fighting and bloodshed.

Wormleysburg Asks State Aid For Street Repairs

Wormleysburg, May 7.—Council in monthly session last evening made application for state aid in resurfacing Front street from the borough limits near the west end of the People's bridge to the state road above Wormleysburg. For three years the borough and the State Highway Department have been bearing the cost of repairing the street, which during the summer is in the best condition of any along the West Shore.

Four carstops will be eliminated in the borough as the result of Council's action. The borough fathers granted the Valley Railway Company permission to skip the alley stops for the duration of the war. This is the third West Shore town to adopt this method in connection with the Valley Railway's plan to save fuel.

The stops that will be eliminated are Blackell, Oak First, Second and Third avenues. The new system will become effective at once.

WHY BE BOTHERED WITH INDIGESTION?

Everybody in Harrisburg knows Geo. A. Gorgas; that his word is as good as his bond. That's why every sufferer from dyspepsia, indigestion, gastritis, heartburn, sour stomach, etc., should go to Geo. A. Gorgas at once and get a package of Bi-nesia—the kind that's guaranteed. Every package contains the manufacturer's binding guarantee contract of satisfaction or money back. Geo. A. Gorgas stands back of this guarantee, thus giving you a double guarantee that Bi-nesia will relieve the worst cases of indigestion in five minutes or money back.

Bi-nesia is not a dangerous drug or artificial digestive; but a simple, harmless product which neutralizes the burning acid, stops fermentation and soothes the inflamed stomach lining. Millions of people in all parts of the world—England, France, Italy, South America, Australia and America are using this product with amazing success. Doctors are prescribing it in hospitals as well as in the universal testimony is Bi-nesia succeeds where all else fails. Soldiers at the front use it to relieve and ward off indigestive troubles; ambulance surgeons make it a point to keep it on hand because they know it gives almost instant relief in cases of acute indigestion due to acidity, food fermentation, etc.

The worst dyspeptics in Harrisburg; those who have suffered for years—who have tried doctors, diets and spent fortunes without getting relief—are asked to go to-day to Geo. A. Gorgas or any other good druggist and get a 50-cent package of Bi-nesia, take it as directed and if it does not help you, if you are not pleased with it just fill out the guarantee slip and get your money back. No questions asked, no affidavits to make. You are the judge and your decision is final.

Bi-nesia is supplied in two forms—powder and tablets. For home use we advise taking a teaspoonful of the powder in a little hot water immediately after meals or whenever pain is felt. For travelers or to send to the soldiers we recommend taking two or three 5-grain tablets—they are much more convenient to carry. Powder or tablet form, 50c, and your money back if it fails. Dyspeptics, get Bi-nesia to-day. Geo. A. Gorgas backs the guarantee found in every package.—Advertisement.

There are about twenty-five stops in the borough and many times in the morning while residents are going to work it is necessary to make every stop. Consequently the cars are late. Officials of the Valley Railway Company have made the request that some of these stops be skipped for the duration of the war.

J. W. Ebsen, a resident of the borough for about fifteen years, was elected a member of Council to succeed the late M. N. Straub.
