One Sunday's Work

Paris, May 9.—Within five minutes on Tuesday Sublieutenant Nungesser, leading French aviator, brought down his thirty-third and thirty-fourth German machines and damaged another, which undoubtedly will be placed to his credit. On Sunday he knocked out two other enemy airplanes, which have not yet been officially recorded. Sublicutenant Nungesser, during three years of air fighting, has been wounded seventeen times and has served on fifty-two bombing expeditions.

American Spy Is

Captured in Camp

By Associated Press

With the American Army in France, May 9.—The first German-American to be caught spying on the Americans is safely in custody. Behind the characterization of traitor to his country, contained in the report of his arrest, is the story that he aided a German prisoner to escape.

Both men donned American officers' uniforms and entered the line from the rear in the late afternoon. They said they were studying the ground between the lines with a view to using tanks and asked to be allowed to cross the lines.

The officer to whom they made the request soon discovered the ruse and ordered them escorted to the rear. There it was found that one of the men was a German and that the German-American was his occomplice.

Washington, May 9,—In recommending wage increases of \$300,000,000 annually for all railroad employes whose wages were less than \$250 a month in December. 1915, the Railroad Wage Commission made several original and far-reaching suggestions on the problem of railroad labor which attracted the close attention to-day of Director General McAdoo and other government officials.

Mr. McAdoo is expected to announce his decision on the recommendations in about ten days. There are indications that he will not accept them in their entirety. Some union officials already have expressed dissatisfaction with the amounts recommended for the men of their organizations, the increases ranging from 4.3 to 4.6 per cent., the highest paid men ruceiving the lowest [Continued on Page 16.]

Heavy Trucks Responsible For Rapid Deterioration; Replacement Cost Big

There is a rising tide of public protest against the misuse of the paved streets of the city. On every side there is heard the most drastic criticism of the destruction of fine asphalted highways by the heavy motor trucks which are permitted to run without let or hindrance to the absolute destruction of the paved streets. It is believed that unless the city authorities immediately take this matter up and enforce without delay strict regulations the enormous cost of replacement will stagger Harrisburg.
