Two doctors, the first to reach he scene, went into the shaft and talked to the imprisoned men through the compressed air tube.

"Give us air," pleaded the men and a call was sent for pulmotors and respirators. A respirator was rigged to the end of the air tube in the hope that the men can be kept alive until the army of rescuers can reach them.

"Had No Friends"

"Gray had no friends anyhow."
said a state official the day following the recent release of Assistant Librarian Norman D. Gray. "He was efficient, but the truth of the matter was that he had no influence in his home county any longer, having been away practically continuously for fifteen years, and he couldn't do us any good. Reagan, on the other hand, is popular and will get us votes we need in the West Chester district."
