"WHEN I was in Johnstown last summer," says Mrs. Vaughn, "Mrs. Knox was at work on her new book, 'Food Economy."

"And the many recipes it contains, not all of them gelatine recipes, by the way, have my hearty approval.

"I have tried most of them, myself, and I know that every woman who is sincere in her pledge to Mr. Hoover will find them invaluable aids to food conservation."

The fact that Mrs. Vaughn has recommended Knox Sparkling Gelatine for seven successive years speaks as highly for its quality as her endorsement of Mrs. Knox's new book does for its value.

Get a copy of "Food Economy" free from your grocer. If he cannot supply you, send us his name and address and we will forward a copy direct to you.

# The U.S. Food Administration suggests that you cook with vegetable oil

WE, who know how good Wesson Oil is, hope you will try Wesson Oil for all of your cooking. Wesson Oil is a pure vegetable oil. It is a delicious and economical cooking fat too. You may try Wesson Oil because it is vegetable and you wish to help in food conservation. Or you may try Wesson Oil because it makes so many good things to eat cost so little, and your own pocketbook calls for 'conservation,' too. But once you have tried it you will continue to use Wesson Oil because it is so good.

In order that none of the inhabi-tants of Locust Grove, the plant labor camp, would leave before the physicians arrived to vaccinate Sun-day morning, a large squad of pa-trolmen were detailed to guard duty at the Grove. Physicians arrived at the camp at 9 o'clock in the morning and

at 9 o'clock in the morning and worked diligently for several hours scratching arms. When the drive first started the patrolmen had some

difficulty in keeping the inhabitants in the vicinity of where the doctors were working. Several of them who

were working. Several of them who became unruly were told they would be locked up if they would not con-sent to be vaccinated. This was enough for them and they con-sented to undergo the treatment. Patrolmen of the force who were detailed to guard duty were vac-cinated too. Of course Chief of Police Metzhelser who had charge of the patrolmen was included and he was scratched too. The chief, it is claimed feels worse over the treatment than any of the patrol-men.

Another case of smallpox was re-ported at the Grove this morning. This is the second case, in less than a month

The Federa-tion has, therefore, endorsed him on all tickets and Mr. Bottomly be-comes the running mate of Charles W. McCoy, of Steelton, both standing upon a positively 'dry' platform."
