Bowman's Special Demonstration OF THE Seeger Syphen Refrigerator Tuesday, May 14th A special factory representative will be and have one of the popular style refrigerators iced and filled with provisions, giving the perfect refrigeration methods of attending this demonstration any time of day. Mothers' Day---Every Day in Camp of the Y. M. C. A. men in a training camp recently classified the letters the boys out in one-day, dividing them into four classes, "Mr.," "Miss," "Mrs.," and business "Thirty-six per cent. were addressed to "Miss," showing the boys remembered the girls it behind them. The next largest number, 27 per cent., were addressed to "Mrs.," and remember that most of the boys have five or six girls but only one mother, this percentage shows how much they think of the mother back home. Dad comes next, with 15 per cent. But the women together got 63 per cent. of all the letters written in camp, which is an idea of how much these war-bound boys think of that home they have left for an extended period.
