RESERVE PLANS TWO COMPANIES

F. H. Hoy, Jr., and L. V. Harvey Named to Command the Units by Major Stine

The Harrisburg Reserve activities were announced last night at the conclusion of an outdoor drill and hereafter there will be two companies only to represent the military end. F. H. Hoy, Jr., was appointed to command Company A, and L. V. Harvey to command Company B. They will recruit and reorganize the companies to a strength of sixty-three, drilling for the present on Friday nights. Members of the Reserves will be given preference, but the companies will be open to any one approved by the commanders.

Police work will be entirely voluntary and in charge of Frank Payne. The details will be announced later. Running down of disloyalty will be directed by Major Stine, who will receive all reports and assign members to investigations. All of this work will be secret.

Twelve members were detailed by Major Stine to assist him in forming the Red Cross parade on Saturday, May 18. They will report for instruction after the drill next Friday. hereafter there will be two compa-

Every Reo Six Is "The Best Six"

TWO REO SIX OWNERS met on the street recently. Just happened to drive up and stop at the same place.

THAT FRATERNAL SPIRIT that for some reason exists between all Reo owners served as an introduction. YOU SEE, THE VERY FACT that a man

owns a Reo Six is an endorsement of his sound judgment and good taste-AND, OF COURSE, they talked of their Reos.

"MY SPEEDOMETER SHOWS 23,874 miles!" exclaimed one exultantly, "and I have owned this Reo Six just two years—bought it in March, 1916.'

"THAT'S PRETTY GOOD" replied the other, but just come here and look at mine.

"24,962 MILES-and I also bought my Reo in March, 1916.'

JUST THEN ANOTHER Reo Six came along. Noticing it was the same model they hailed it

"HOW LONG HAVE YOU driven your Reo Six and how many miles?'

HE HAD DRIVEN his Six 20,245 miles in twenty-one months.

DID SPACE PERMIT we'd like to tell you all those three Reo owners said to each otherfor each was an enthusiast and each insisted that hard driving and care considered, his was

THAT'S THE IDEA we wish to convey in this advertisement—that every Reo is a good

WONDERFUL UNIFORMITY of performance due to wonderful uniformity of qualitythat is an attribute distinctly Reo.

WE'VE SAID BEFORE and we repeat, that after 20,000 miles your Reo Six is still new. OWNERS KNOW THAT - not only Reo

owners, but their friends who drive other sixes and who compare notes as to cost of operation and upkeep.

AND THAT IS WHY the demand is always greater than the factory output.

YOU MUST ORDER your Reo Six at once if you would obtain one for early spring delivery.
