Includes text: 'Good to Look at Better to Look Through' and 'In fitting glasses I am careful to accomplish two things, both of which are very important. First, and above everything, I make a thorough scientific examination and write a prescription for lenses that I know will positively remedy any defects of vision that may exist. Secondly, I study the countenance and recommend mounting or frames that will harmonize with the features. I am just as particular too, that they should feel comfortable to the wearer. My experience of 25 years as a graduate optometrist qualifies me to guarantee the most satisfactory service.'
