why care now?

This tiny oottle holds an almost magic fluid. A genius in Cincinnati discovered this ether compound and named it freezone. Small bottles of freezone can be had at any drug store for a few cents. Apply a few drops on your tender, aching corn or callus. Instantly the soreness disappears and shortly you will find the corn or callus so shriveled and loose that you can lift it off with the fingers.

fingers.
Just think! You get rid of a hard corn, soft corn or a corn between the toes, as well as hardened calluses, without suffering one particle.
