Instead of the bare and unsightly roadway, whose only adornment is a few small iron posts with Keep to the right" signs on the top in the center of the square, there will be constructed a grass plot and concrete walks. The circular grass plot will be sixty feet in diameter, with a cluster of electric lights in the center, and out from the ornamental light posts will be there concrete walks going north, south, east and west. At the edge of the grass at the walks will be other clusters of lights, while a concrete walk will surround the entire plot. In making plans for this improvement it was necessary to procure a release from the Grand Army Post, to whom the center of the square had been ceded some years ago for the erection, of a memorial to the soldiers from Adams county who fought in the Civil War. It is expected that the work will be started at once.
