

'T'WAS "CINCH," SAYS FLYER WHO DOWNS TEUTONS

Captain Peterson Watches Enemy Machines as They Plunge to Earth

With the American Army in France, May 17.—Captain David Peterson, of Honesdale, Pa., and Captain Kenneth Marr, of California, the heroes in the aerial battle on Wednesday, in which Captain Peterson brought down two German monoplane and Captain Marr destroyed an enemy biplane in the "Toul" sector, told their stories of the battle yesterday.

"I was flying near Thiaucourt at an altitude of 5,000 meters," said Captain Peterson, "when I saw two German airplanes that were flying at right angles in the distance. I ascended 200 meters higher, circled and stopped my engine and started after them. I finally got closer to the last plane and at a distance of 100 yards I opened fire with incendiary bullets and the German machine almost immediately burst into flames and fell.

"I continued straight on my course," he went on, "and within two minutes had the other enemy machine before me. He started a quick dive, but I am certain that some of the bullets went home. One of the wings of the machine crumpled up at the same moment. As I circled about I saw one machine burning on the ground and the other, smoking in its downward plunge, crash to the earth. That is all there is to it. It was a cinch."

Other Captain's Story

Captain Marr was flying at an altitude of 2,000 meters when he saw an enemy machine over the American lines.

"As I sailed out I saw him far away, circling out from our line and a cloud of puffs from our 'Archies,' he said. 'I circled out wider and finally passed the German and turned again down our line between the enemy and the sun. Both of us had the sun at our backs.

"As I opened up my motor and approached nearer," he said, "I saw that I had a two-seater to deal with. I thought that the German might see me or hear my motor, so I went a hundred meters lower, until right under the tail of his machine. Then I pointed the nose of my airplane upward and went on a level with the enemy and opened fire at pointblank range.

"The German never knew I was there until incendiary bullets, alternating with ordinary missiles, began pattering through his machine.

"After twenty shots his machine toppled."

Air Mail Carrier Loses Way in New Jersey Fog

Washington, May 17.—Airplane mail service between Washington and New York was interrupted considerably yesterday on a southward bound trip. Mail leaving the capital at 11:30 o'clock was deposited at the Belmont flying field in New York at 2:58 o'clock, but the southbound consignment which left New York before noon did not arrive here until 8:35 last night.

Lieutenant Stephen Bonsal, Jr., leaving New York this morning lost his bearings in a fog and wandered far off his course. Landing at Bridgeton, N. J., forty miles from Philadelphia, he smashed his propeller and one wing as the result of swerving into a fence while trying to avoid several trees that stepped in the path of the speeding machine.

The mail was rushed to the Philadelphia field at Bustleton, and got under way again at 5:15 o'clock in a plane piloted by Lieutenant Walter Miller. The machine developed engine trouble after twenty-five miles and was forced to return. Lieutenant James C. Edgerton, who flew from the capital to Philadelphia earlier in the day, then volunteered to make the return trip.

TO DARKEN HAIR APPLY SAGE TEA

Look Young! Bring Back Its Natural Color, Gloss and Attractiveness.

Common garden sage brewed into a heavy tea, with added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one smart strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

This preparation is a delightful toilet requisite and is not intended for the cure, mitigation or prevention of disease.—Adv.

"Dry" Candidates Tell of Gaining Strength

H. A. Sherk and Dr. C. I. Trullinger, candidates for the Republican nomination for the Legislature in the Harrisburg district on the "dry" platform last night told of the rapid growth of "dry" sentiment in this community and of the strength they are gaining as a result of the rapid growth of "dry" sentiment in this community and of the strength they are gaining as a result of the rapid growth of "dry" sentiment in this community.

Dr. Trullinger was especially enthusiastic. "I find that nine-tenths of the people, whom I meet are for the 'dry' cause," said he. "It is gaining every day." The doctor and Mr. Sherk predicted their nominations because of the strong "dry" feeling they said is being manifested in the city.
