the Senate privileges and elections committee, which is investigating the charges. Gilbert E. Roe, the senator's at-torney and his former law partner, asserted the speech was highly pa-triotic and came clearly within the rights of the senator to make. He said the press reports and the tran-script furnished by the Minnesota commission were garbled. "It is no doubt true that the senti-ments expressed in the speech are displeasing to many persons and many interests," he added, "but the charge that it contains anything dis-loyal or seditious or anything that a United States senator, or for that matter any citizen, might not prop-erly say is grotesquely absurd." Among the statements in the speech the accuracy of which has been questioned was one declaring that Secretary Bryan had warned President Wilson that the Lusitania, before sailing on her last trip, car-ried explosives and had suggested that passengers should not be al-lowed to sail on her. A brief sub-mitted by Mr. Roe reiterated it and said if its accuracy is questioned, the Senator would be glad to "sub-mit detailed proof of the facts." It is true that this falsehood has been repeated and multiplied during all the months that have since elapsed and has been cun-ningly used to procure votes of con-demnation from various individuals and bodies throughout the country. Vancouver, B. C., May 23.—Al-though the big Hasting sawmill here is closed for repairs and will not be operated again until August 15, the refuse burner that has served as a beacon for vessel masters for fifty-two years will not be extinguished.
