Bituminous Mines Must Yield Nation's Supply of Coal For Next Winter

Philadelphia, May 28.—The production of coal in the United States for the year beginning April 1, must reach 735,000,000 net tons, J. D. A. Morrow, General Director of Distribution of the United States Fuel Administration, today told the National Coal Association in convention here. This means an increase of \$5,000,000 tons over the production of the coal year 1917, if the war demands of the country are to be met. It is doubtful, Mr. Morrow said, if the production of anthracite coal can be increased over last year's total of \$9,000,000 gross tons. Therefore, the entire \$5,000,000 tons must come from the bituminous mines.

Giant Submarine Sinks Large U-Boat

London, May 28.—The sinking of a German submarine by a British submarine off Cape St. Vincent shows that the British have cruising submarines and this is only one incident where a submarine has sunk a submarine, says Archibald Hurd in the Daily Telegraph. The Cape St. Vincent incident took place more than 2,000 nautical miles from Plymouth. He continues: "It is indeed no secret to the Germans that soon after the outbreak of the war a great number of large submarines were laid down in this country. It is also no secret that for many months past many of these craft have been used in submarine hunting."

"British submarines have been employed in this way with great success. They also have proved useful in convoy work."

Induction of Colored Men Is to Close

Telegraphic instructions from Camp Meade this morning, ordered Lieutenant Harry King Toole, assistant adjutant of the Three Hundred and Fifty-first Heavy Field Artillery, to close his station in Harrisburg today. No colored men will be accepted for induction who cannot leave for camp Wednesday. Hence this evening no men will be accepted at the recruiting office maintained in Marshall's Pharmacy, 629 Boas street, unless they are able to have their draft boards start them for Camp Meade tomorrow. It is evident from these orders, as well as those which held up the city's drive for men who must register June 5, that the way is being cleared for the operation of the draft machinery unhampered by individual inductions or enlistments.

STORES TO CLOSE
All merchants affiliated with the Keystone Grocers' Association and with the Harrisburg Retail Grocers' Association will close their stores all day on Thursday, Memorial Day.

COAL RATION PLAN IS FIXED BY GARFIELD

Failure to Add to Production Indicates Demand Will Exceed the Supply

Washington, May 28.—The system of distribution for the entire output of coal, both anthracite and bituminous, has been determined upon by the United States fuel administration, it was learned today. It includes the apportionment of the entire available supply by geographical districts and states so that every section will receive the full amount which can be devoted to its industries.

Final decision in the plan was reached after a conference between Doctor Garfield, Federal fuel administrator, and the anthracite committee. Figures on the distribution of anthracite coal are to be made at once, while those for bituminous coal probably will not be available for a week, due to the fact that some last-minute changes were made in the anthracite schedule, necessitating a rearrangement of the bituminous figures.

Reports from the state fuel administrators, the estimated production for the year and a survey of the industries of the nation were the foundation upon which the distribution plan was evolved.

All States Ask Too Much
It was said that the estimates of the state administrators as to the needs of their respective localities had not been met, as they were all too high. At the same time the fuel administration forced its figures on production in order to be able to allot what was plain was the minimum on which the various sections could get along. The industrial survey was another important factor, as the officials were unable to proceed on a basis of population or other existing figures, but were forced to take into consideration the expansion of the industries and the increased consumption brought about in allied industries.

The distribution scheme, in addition to allotting the amount of coal to be given the various regions, will determine the field of production from which it is to be supplied, and the short haul will be rigidly adhered to so that consumers living close to the fields producing the more expensive grades of coal will be provided with them regardless of other factors.

Another Shortage Predicted
The fuel administration does not make any concealment of the prospect that there will be a fuel short-

GENERAL WOOD WILL REMAIN TO TRAIN TROOPS

Confers With Baker and Is Assured of Active Work

Washington, May 28.—Major General Leonard Wood's request that he be given more active duty than as commander of the western department, it was understood today, will be granted by the War Department, and the general will be assigned to train another division of troops, probably at Camp Funston.

General Wood's detachment from command of the 89th Division at Camp Funston, which will go overseas, and his assignment as commander of the western department became known yesterday. At a conference yesterday with Secretary Baker, General Wood requested that if he could not be sent abroad he at least be given active work to do. This request, it is understood, will be granted. It had been understood that after passing the required physical tests, General Wood would lead his division to France, but the War Department ruled otherwise.

Huns Continue Reign of Terror Among Belgians; Consular Agent Doomed

Washington, May 28.—The German authorities are continuing their reign of terror among the civilian population of Belgium according to advices received from Havre by the Belgian legation.

Consular Agent Vanbergen, of Brussels, and a jeweler named Nauwelaerts were sentenced and shot at the same time as Abbe Moons, rector of Winxelo, at Namur.

Dr. Demels, at first reported executed, has been sentenced to hard labor for twenty-three years, and numerous sentences for life, one of which was upon a family of six and a servant, have been meted out by the Huns.

Another Harrisburg Lad Who Has Gone "Over"

Mr. and Mrs. John Peifer, 416 Cumberland street, have received word of the safe arrival in France of their son, John C. Peifer. Private Peifer enlisted in June, 1917. He was stationed at Camp Hancock. He was formerly employed as a machinist in roundhouse No. 1 of the Pennsylvania Railroad Company.

CHURCHES ADVISED TO BUY COAL AT EARLY DATE

Churches are advised by fuel administration authorities to place their orders for their winter's supply of anthracite at once or run the possibility of going fuelless during the winter months. Orders for coal needed until April 1, 1919, should be filed at once. Churches so doing will be entitled to receive two-thirds of the needed supply as soon as it can conveniently be delivered.

JOHN C. PEIFER

Plans for the participation of City Grays in observance of Memorial Day were completed at a meeting of the organization last night. It was decided to use the same ceremonies as in previous years. Graves of Captain T. F. Maloney and Brigadier General Joseph Hutchison will be decorated.

WANDERED FROM HOME

Little Mildred Herr, six years old, of the Harrisburg police force, and is now at the police station charged with carrying concealed deadly weapons. Fred Mason was arrested this morning by Officer Keys in the vicinity of Walnut and Cowden streets on the charge of disorderly conduct. Keys received a sharp blow in the face from Mason before he succeeded in placing him under arrest.

POST OFFICE TO CLOSE

On Memorial Day the main Post Office and Hill and Macloy stations will be closed from 10 a. m. to 12 p. m. The 5.40, 7.30 and 10.20 p. m. collections will be made. No city or rural delivery service will be made. At 8 a. m. a delivery of perishable parcel post matter will be made over the entire city delivery territory.

TAKE STUART'S WATCH, \$1,600 IN CASH AND BONDS

Former Governor of State Out Two Ways When Burglars Call

Philadelphia, May 28.—A diamond-studded watch voted twenty-eight years ago to Edwin S. Stuart, former governor of Pennsylvania, as the most popular man in Philadelphia, has been exchanged by thieves for a burglar's outfit. Gloves were used to prevent a clue from finger prints.

Mr. Stuart had no voice in the exchange, and he didn't know anything about it until after it had been effected Sunday morning between 5.30 and 9 o'clock at Leary's bookstore, in Ninth street below Market. Leaving their tools and their gloves, the burglars took the watch, \$1,000 in cash and \$600 in Liberty Bonds belonging to employees of the store.

A lawyer living next door to the store, which is owned by a firm including the former governor, telephoned to William Stuart, another member of the firm and a brother of the one-time chief executive, about 9.30 o'clock Sunday morning that a basement window of the building was open. Mr. Stuart went to the store and found his brother's private office littered with papers and his desk broken open. A visit to the counting room disclosed a similar scene of confusion.

The safe doors were open. One side of the door had been completely pried open by forcing back the bolts. The burglar's outfit and gloves were found on the floor.

Former Governor Stuart said the loss of Liberty Bonds by the employees would be made good by the firm. He did not express a deep

Train Kills Lebanon Physician at Crossing

Lebanon, Pa., May 28.—Dr. Benjamin Fishburn, 45 years old, a practicing physician, was instantly killed yesterday and his body almost cut in two and left arm cut off at the shoulder when a Philadelphia and Reading shifting engine struck him at the Seventh street crossing. A passing freight train on the westbound track impeded the physician's view. He was related to the Fishburn family at Shellsville, Dauphin county.

3 Official War Maps

Showing all the Belligerent Countries and the Battle Fronts. Beautifully printed in Four Colors; Size 31x39 in. each. They cover not only all belligerent countries and the battle fronts, but they also show where all other world wars for the past 6,000 years were fought with historical notes, giving the famous events in history which were associated with the very places where our American troops are now fighting.

THIS IS A WORLD WAR

THE area of the military operations seems to be spreading like a great conflagration that is not under control. Therefore the Harrisburg Telegraph arranged for a limited edition of the splendid New War Maps which the publishers of The Encyclopaedia Britannica have brought out so that people could comprehend just what is happening not only on the Western Front, but in Mesopotamia, and the Ukraine, in Finland and the Baltic provinces, and in many other remote places about which stay-at-home Americans know next to nothing at all.

WHAT THESE MAPS ARE

Map No. 1—covers Western Europe from Berlin to London and from Denmark and the Kiel Canal to Switzerland and shows the entire Western Front.
Map No. 2—covers Eastern Europe from Berlin to Moscow and from the Baltic to the Black Sea, and shows the Eastern Front.
Map No. 3—covers Southeastern Europe and Turkey in Asia and includes the Italian, Rumanian, Salonican, Mesopotamian and Palestinian Fronts.

Have You a Son, a Brother, a Sweetheart or a Friend in the Army or the Navy?

THEN you certainly ought to cut out the coupon and send 69 cents and get these beautiful War Maps to use as a guide to the strange places in different foreign lands where our troops will go into action. You need them so that you can talk intelligently about the war news from day to day.
