**HUNS DIRECTING POWERFUL DRIVE TOWARDS PARIS** 

No Letup in Germany's Terrific Thrust in Southerly Direction

ALLIES FALLING BACK Americans Prove Their Worth by Repulsing Fierce Counterattacks

There has been no letup as yet in the German drive south, from the Aisne and both the French and the British have been forced to give further ground. Confidence is expressed in Paris, however, that the allied reserves now rapidly coming up, will shortly turn the scale and stop the enemy advance.

Apparently the Germans already are being held in the center of their advance, along the Vesle river, in the vicinity of Fismes, where the point of the German wedge has been thrust. The pressure on both the allied flanks, however, has been such that both have been compelled to fall back.

### Huns Broaden Front

Huns Broaden Front On the west, the French lines have been withdrawn to the easterly out-skirts of Soissons, which town is, about seven miles south of the near-est point of the battle line as it ex-isted before the new German drive was begun on Monday. This con-siderably broadens to the west the front on which the enemy is ad-vancing. n the east the Franco-British line

is been pulled back from above St. hierry, northwest of Rheims, where rested yesterday, to the heights buth and southeast of that town, his also has the effect of widening at the front of the enemy thrust.

### Aim at Paris

Aim at Paris The bringing of Solssons into the battle area may indicate that die weight of the German blow has been shifted in this southwesterly direc-tion and is being exerted along the raidway that leads to Paris from that of the enemy push being turned in the direction has been forecast by the commentators. The Americans west of Montdidier maye further proved their worth by resisting another German counter-attack on the new position won by the American troops yesterday when they drove into a depth of nearly a mile and captured the village of Cantigny. The Germans were re-pulsed in-their second effort as in their first, and suffered heavy losses.

o'clock. Special services will be held by congregations of every denomina-tion and faith in the city, prayers being offered for the success of the thousands of Harrisburg lads who have answered the nation's call to arms.

First steps toward carrying out proposed plans for improving condi-tions at the present smallpox hos-pital and erection of another struc-ture to be used for other contagious diseases were taken at a meeting of city and county officials when Coun-ty Commissioner Henry M. Stine was authorized to appoint a committee of five to make recommendations to the County Commissioners. Attending the conference this morning were representatives of the state, city, Steelton and Middletown health departments, County Com-missioners, Directors of the Poor and other city and county officials. Com-missioner Stine appointed the follow-ing committee: Frank B. Snavely, County Poor Director; Commissioner S. F. Hassler, Dr. C. R. Phillips, county medical inspector; Charles Yost, president Steelton health de-partment; E. S. Gerberich, president Middletown borough council. Many suggestions were made by the officials at the meeting and a number of these will be considered by the committee. According to Commissioner Stine the county offi-
