

WOMEN DID WORK IN BOND DRIVE

Emergency Aid of Pennsylvania Largely Instrumental in Big Overseas Subscription

To close of the Third Liberty Loan campaign has served to call attention to the truly remarkable work accomplished by the women of the country...

The Emergency Aid of Pennsylvania, of which there is a branch in Harrisburg, while not participating in the loan campaign as an organization, was nevertheless largely instrumental in the success of the district women's organization...

To illustrate—it was Mrs. Barclay H. Warburton, vice-chairman of the Emergency Aid, who conceived and carried out the idea of the Women's Liberty Loan or "Second Liberty Loan" parade as it was called, and who prevailed upon Mrs. Woodrow Wilson, the first lady in the history of the United States, to review it.

The chairman of the Philadelphia District of the women's loan organization was Mrs. Walter S. Thomson, who is also chairman of the Overseas Committee of the Emergency Aid and a member of the executive committee.

Mrs. Thomson's organization, comprising ten districts, organized and reviewed the parade in Washington to review it. The parade was the greatest demonstration of women ever held in Pennsylvania, and was participated in by numerous organizations, including the Red Cross, the Department of Navy Recreation of the Women's Naval Service, the Y. M. C. A., Girl Scouts and several local church and school war-relief bodies.

HOW THE GERMANS HOPE TO SHOOT INTO LONDON BY CAPTURING CALAIS

One purpose of the great German drive is the capture of the English Channel ports, Calais and Boulogne, in order to establish several of their long-range guns to shoot into London. They have already shot seventy-five miles into Paris. Ordnance men, who were greatly surprised by that feat, are now willing to admit the Germans may have a gun which will shoot from Calais to London, ninety miles—that is, fourteen miles farther than the present gun shoots.

BREAD SHORTAGE IS BEING AVERTED

supply the demand on the concern, Harrisburg trade will be supplied first and no bread shipped to some of the out-of-town dealers. This matter is now being taken up with the out-of-town dealers, explaining the condition. As much of this trade as possible is being eliminated for the next four weeks by the Standard Company. The local bakeries in such towns can in practically every instance supply the increased demand caused by the cutting off of the Harrisburg supply and in this manner will do much to alleviate conditions in Harrisburg.

No Difficulty So Far The only difficulty that exists now is that found in the delivery problem and this is being considerably lightened through the hearty cooperation of the dealers that their customers may not suffer. The Standard Company is now making but one delivery each day in efforts to eliminate as much waste motion as possible. Dealers have been asked to give their orders a day ahead of time that they may be fully supplied in the one delivery.

Merchants in all parts of the city this morning reported that they were experiencing no difficulty in securing a full supply of bread from the two Harrisburg concerns now operating. None reported any difficulty in being supplied. H. W. Long, manager of the Standard Bakery, this morning announced that in case any person in Harrisburg has not received a sufficient supply of bread to meet his needs, he may come to the bakery at any time and secure enough.

Statements issued by L. M. Brickner this morning were to the effect that a total of 158,000 "counts" had been produced by his plant within the past thirty-six hours. This is equivalent to 725,000 "counts" weekly, triple the ordinary supply of 230,000 "counts." Manager Long, of the Standard Bakery, announced that 55,000 "counts" daily are now being produced by his concern. So, with such productions and with the plants running seven days each week, Harrisburg need fear no bread famine.

DISQUIETING WAR NEWS HITS STOCKS

Leaders Improve During the Opening Hour But Suffer Setback, Gains Made at the Outset Being Entirely Lost

New York, May 31.—The market awaited further news from the war front to-day at opening. Speculative interests halted pending advices.

Fractional rallies set in at noon. Liberty 3 1/2 sold at 95.54 to 95.80, first 48 at 94.10 to 94.12, and the second 48 made a new low record on the break from 94.16 to 94, also the 4 1/2 on the decline from 97.04 to 97.

Revenue Hearings Will Begin June 6

Washington, May 31.—The Ways and Means Committee has fixed June 6 as the date for beginning public hearings on the new revenue bill. The plan approved by the Ways and Means Committee calls for a recess during July, on the theory that the revenue measure will be completed in Congress by August 1, with passage of the bill in the House by the middle or last of August and a recess of the House while the bill is under debate in the Senate. Leaders are unanimous in the opinion, however, that the measure cannot be ready for the President's signature before late in October at the earliest.
