

Revolt of Turkish Troops Is Spreading

Washington, May 31.—A cable from Athens received by the Greek legation says: "The revolutionary movement at Aidin, Asia Minor, is extending to the district of Magnesia. Two thousand Turkish troops sent there have deserted. Numerous desertions have taken place in the garrisons near the coast. The repression of the movement has been entrusted to Essad Pasha of Janina."

HEALTH IN ARMY CAMPS IS GOOD

Washington, May 31.—The health of American troops in this country "is of a fine quality," according to official tables yesterday. The hospital "admission rate" was lower than last week though the "non-effective rate" was higher. The death rate, 5.7, was the lowest with one exception. Pneumonia admissions showed a decrease, with 354 new cases, as against 543 for the previous week. Cantonments show the highest pneumonia rate, due presumably to the fact that measles develop among the new masses of men and measles frequently develop into pneumonia.

RED CROSS FUND GROWS

Late returns of contributions during the second Red Cross Fund drive are sending the totals higher, with the probability that when all contributions have been tabulated the total will reach the \$250,000 mark. The \$100,000 mark was asked of Harrisburg. Mrs. Lyman D. Gilbert, chairman of the Harrisburg chapter, gives out the information that returns to date show the chapter has subscribed over \$240,000, with more reports to be received. The total previously announced was \$228,300.

STENOGRAPHERS VOLUNTEER

When stenographers of Harrisburg learned that there was a vacancy in the Army post at Spartansburg, S. C., three of them applied for the position following an announcement by the local chapter of the Red Cross. Other applications will be received by the local chapter and application should be made at the headquarters in the basement of the Public Library.

Lemon Juice For Freckles

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quart of the best freckle and tan lotion, and a complexion beautifier, at very, very small cost. Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and white the skin becomes. Yes! It is harmless.

Hopes Women Will Adopt This Habit As Well As Men

Glass of hot water each morning helps us look and feel clean, sweet, fresh.

Happy, bright, alert—vigorous and vivacious—a good complexion; a natural, rosy complexion and freedom from illness are assured only by clean, healthy blood. If only every woman and likewise every man could realize the wonders of the morning inside bath, what a gratifying change would take place.

Instead of the thousands of sickly, anaemic-looking men, women and girls with pasty or muddy complexions; instead of the multitudes of "nervous wrecks," "rundowns," "brain fags" and pessimists we should see a virile, optimistic throng of rosy-cheeked people everywhere. An inside bath is had by drinking, each morning before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach. Those subject to sick headache, biliousness, nasty breath, rheumatism, colds and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store which will cost but a trifle but is sufficient to demonstrate the quick and remarkable change in both health and appearance awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood, while the pores in the thirty feet of bowels do.—Adv.

Eagle and Silver Fox Patrols Get Revenge For Last Year's Defeat

Troop 6 expects to hold a musicale about the first of July. It is also planned to hold an exhibit of articles made by the Scouts of the troop in their efforts to pass the handicraft requirements for the class rank. The proceeds of the musicale will go to the camp fund. A challenge has been received from Troop 4, Hantsburg, for a baseball game. The challenge has been accepted and the game will most likely be played at Millersburg on a date agreed on by both troops. Troop Is Visited By Scoutmaster Scoutmaster McAllister being home on a furlough visited Troop 4 at its last meeting. He gave the Scouts a talk on his doings and travels which was appreciated by the Scouts. He showed the Scouts how the men are lined up for boxing lessons and how they fight with bayonets. At this meeting a new service flag of the troop was unfurled, having fifteen stars. Another star is to be added soon. The troop expects to take a hike to-day to Indian Rock to see the Signal Corps to be a camping site. This troop wishes to challenge any troop of Scouts to a match of tennis. The troop team consists of Beard, Shreiner, Speakman, Hobart, Favord and Keller. Any troop wishing a match should phone or write Scout Hobart, 715 North Seventeenth street. Phone 3626R, who is manager.

Boy Scouts Are Aiding Ordnance Department

Again the Boy Scouts are helping the government. This time it is in the making of a census of all the black walnut wood throughout the United States. The black walnut is needed by the Ordnance Department in the manufacture of gun stocks and by the Signal Corps to be used in making airplane propellers. During the past two weeks hundreds of black walnut trees in this vicinity have been reported to local headquarters at Washington. Within the next day or two all scoutmasters ought to receive from the national headquarters blank forms for the making out of these reports along with instructions as to how the canvass of the country is to be made. Scoutmasters should report to local headquarters if they do not receive the forms within the next few days.

Many Troops Out of the City on Memorial Day

The scout page this week will be small owing to the fact that many troops are out of the city on two or three days' hikes. Boy Scout camp is being held in many dark woodland patches last night, and next week's page ought to be full of live, interesting "dope" on the experiences of the hikes. Let's have them scribbled into the scout page you have. This is your page. Make the most of it. If your hike was enjoyable let the others know about it. If you have any suggestions to make to other troops that will help make them enjoy their trips, write them up. It's a good turn to help the other fellow.

Peaky Current Wouldn't Stop; Cars Are Held Up

For ten minutes this morning, just when people were anxious to get to work, Car No. 604, of the Third street line, stalled between the two trackhouses the Vester-A street. In the rear and waiting for 604 to move ahead were cars 602 and 451. A workman nervously busied himself about the controller box in an effort to clear the trouble. Meanwhile, passengers swore softly and looked at their watches. The trainmen of the three cars gathered on the front platform of 604 while the operation of restoring the efficiency of a current breaker went on. Huh, it wasn't their trouble; it was the troublemaker's trouble. Finally the workman said O. K. and traffic north in Fourth street was resumed.

Children love pretty clothes and just as much care must be exercised in selecting for the little ones as for the grown-ups. One must please the mother who naturally takes pride in having her child look the best possible.

Years of experience and special study by those in charge of the Children's Department has made it possible to select garments for young girls, the younger children and infants that meets with the approval of a discriminating clientele. Some of the many things are—
