Merit and good-breeding will make their way everywhere.—LORD CHES- TERFIELD.

SHIPS WHILE YOU WAIT

EIGHTEEN ships in one week? That surely is a record of which the country may be proud.

The Ukrainians are now learning the worth of German promises, says a news dispatch, yes, and what is more important, so are we.

PRO-PENNSYLVANIAN

SAUERKRAUT is 'neutral,' the National Food Administrator announces.

This is an astounding statement, Mr. Hoover, but we'll be charitable enough to recall that it was made on the hottest day of the season and the heat may have caused the slip.

Now everybody in Pennsylvania, at least, knows that sauerkraut is no more neutral than Limburger cheese.

Sauerkraut is not neutral; it is pro-ally and pro-American and above all else pro-Pennsylvanian. In the language of the Berks county bard:

Sauerkraut is good, Sauerkraut is fine, I think I ought to know it, For I eat it all the time.

And not for a moment should its loyal Americanism have been questioned. Be a little more careful how you talk about old friends of ours, Mr. Hoover, a little more careful.

You will kindly note that the German attack on the American front has resulted in a net gain of about a mile for the Americans.

OFFICIAL RESPONSIBILITY

THERE is an unfortunate tendency in municipal official circles to "pass the buck," to shift individual responsibility from one department to another.

It is quite a common thing to hear that one commissioner will excuse his own shortcomings by insisting that another commissioner was responsible; that the particular thing to be done did not belong to his department; that, therefore, it was not up to him, but to his colleague or colleagues.

of the indifference or carelessness of individual members of the board. So much is involved in the proper maintenance of the city that the city council must co-operate in the discharge of important public duties. It is undoubtedly necessary to divide the work, but this fact will not relieve any one of the five of personal responsibility for general results.

In formulating a new revenue measure, let's have a large item of practical common sense as to its provisions and the manner of its operation.

LOOK US OVER

THIS week Harrisburg merchants are demonstrating the "Monitor" hosiery, the product of one of the city's leading industries.

This city is becoming more and more an industrial and manufacturing center and with its unrivaled distributing facilities it is bound to develop into one of the great industrial and manufacturing centers of the country.

The Bolshevik rule of Russia cannot be introduced in this country under the name of the I. W. W. or any other appellation. Americans are becoming more and more impatient as they see the efforts to undermine our institutions.

WHEN SIMS SPEAKS

VICE ADMIRAL WILLIAM S. SIMS may not realize his power to hearthen his countrymen, but it is a fact that Americans are more inspired by his occasional statements than by the utterances of any other outstanding figure in the great world war.

Also, his presence at a recent baseball game in England, staged as a benefit for the charity fund of the Army and Navy, showed the human side of this popular officer, whose great part in the elimination of the submarine menace will not be fully understood until the end of the war.

Saloonmen are preparing their customers for prohibition by cutting in half the size of the five-cent glass of beer. By repeating this operation a few times, the country will scarcely realize the difference between being "wet" and being "dry."

LOAFERS AND THE WAR

IN a proclamation of Governor Whitman, of New York, it is declared that public exigency requires that every able-bodied male person between the ages of eighteen and fifty years should be habitually and regularly engaged in some lawful, useful and recognized business, profession, occupation, trade or employment until the termination of the war.

It is said that there are still in Harrisburg a considerable number of husky individuals who are suffering from that tired feeling which manifests itself about locust blossom time and who have no visible employment. There are also in this city hundreds of boys under twenty who find ample time for the exercise of their destructive tendencies in the parks and elsewhere.

A police census of Harrisburg, which would show the occupants of every house and how and where these occupants are employed, would furnish a basis for practical effort in eliminating the loafer. It is no secret that a large number of men and women are bluffing through this war period without doing anything that can be construed as aid in winning the war.

It is time that Harrisburg should know who are helping and who are leading in this crisis of the world.

"Habits form character," observes an exchange, and it might also have added with equal truth that character forms habits.

Ten years for Mrs. Stokes, and not one day too many.

Why not put some of the interned Germans at work on the farms; a ball and chain on the leg would not prevent them from picking vegetables or weeding gardens.

The acquittal of the lynchers of Prager may not be in full accord with the highest standards, but it is certainly going to make pro-Germans a bit more careful.

If the hot cut down the size of the meat orders, as Mr. Hoover suggests, will they reduce prices as well?

Politics in Pennsylvania

By the Ex-Committeeman

Pennsylvania's Democratic state committee will hold its biennial reorganization meeting here probably on June 18, four days after the meeting of the Republican state committee in Philadelphia.

The Republican state committee will reconvene in Harrisburg and Secretary Baker, hear an address by National Chairman Will H. Hays and the state candidates at the meeting in Philadelphia. Senator Penrose, the national committeeman, will likely speak, too.

The prohibition state committee will meet here Wednesday to outline its course of campaign.

These are the days of reorganization of county committees and it is noted that while the Republican committees are generally endorsing Sprout, Beideman and Woodward, the Democratic committees in reorganization counties are not showing any great interest in the ticket in favor of the Bonniwell ticket.

AIN'T IT A GRAND AND GLORIOUS FEELIN'?

AND YOU SPEND A SLEEPLESS NIGHT TRYING TO THINK UP A GOOD EXCUSE TO HAND THE JUDGE

AND YOU SIT AN HOUR AND A HALF IN THE COURTROOM LISTENING TO BETTER ONES THAN YOURS - BUT IT'S FIVE DOLLARS AND COSTS

AND YOU WALK UP TO THE BAR WITH SPAGHETTI KNEES AND YOUR OUGHT TO BE AND YOUR EXCUSE BRINGS HOME THE BACON

OH-H-H BOY!!! AIN'T IT A GRAND AND GLORIOUS FEELIN'?

Speaking of motor cars the odd contrast that there is seen on market day are just as striking in their way as they used to be twenty-five years ago.

EDITORIAL COMMENT

It is chronicled that United States troops at the front "return the enemy's fire two to one and give him back a double dose of whatever he sends over." American prodigality in Europe was always notorious.

After proclaiming the president the greatest living statesman, Colonel House is quoted as modestly adding that his mind and that of the president "run parallel on most subjects."

As the German press put it, Germany and Austria are "fishing shoulder to shoulder until peace is won," which is a tactical way of saying that neither dares to turn its back on the other.

And when it comes to the delirium tremens of optimism, what do you think of that Irishman who said that if the Germans win the Sinn Fein intend to turn in and lick the conquering Kaiser?

It was desirable, of course, to inscribe the new Russian flag with something short, simple, and easy to read at a distance. So after mature deliberation they settled upon this: "Rossiskaya Sotsialisticheskaya Federativnaya Sovetskaya Respublika."

OUR DAILY LAUGH

It's a rather odd thing how the warm water caught this city unprepared. There was no much rain during May almost until within four days of the close of the month for very few people were really ready for summer weather.

THE folks that on the first of May, wore winter coats and hats began to say the first of June, God Lord, how hot it grows.

WELL KNOWN PEOPLE

The Rev. J. J. Schindel, prominent Allentown clergyman, was one of the Philadelphia churchmen.

The Rev. J. C. R. Ewing, president of one of the colleges in India, will deliver addresses at commencement exercises in western towns.

A. H. Young, government safety expert, says in addresses he has been delivering that harmony and co-operation in war work is needed everywhere.

Erasmus Wilson, of the Pittsburgh Gazette-Times, was elected president of the Pennsylvania Flood Correspondents Association.

John P. Connelly, Philadelphia city solicitor, is a member of the laymen's committee for the reception of Archbishop Dougherty.

Col. H. R. Laird, of Williamsport, retiring commander of the Templars in this state, was president of the Templars at the close of the convocation at Williamsport.

Captain E. K. Roden, of Scranton, has renewed his move to have the Rev. H. G. Secretary Daniels to promise to consider it.

DO YOU KNOW

That Harrisburg's park system has been visited by many automobile parties this spring?

HISTORIC HARRISBURG

Must day was an event in Harrisburg for twenty years following the Revolution and it proved its value in the War of 1812.

LINE UP BEHIND SPROUL

Dr. Homer W. Tope, Philadelphia, district superintendent of the Anti-Saloon League, has issued a statement in which he declares that temperance workers must line up behind Sprout for Governor.

PERILS OF BABYHOOD

According to an official government statement made in connection with the federal campaign to save the lives of babies during war time, it is six times safer to be a soldier in the trenches than to be a baby in its cradle in the United States.

Victory or Ruin

[From the Boche Review.] It becomes necessary to watch the progress of the German drive with what fortitude can be commanded. An attainment of its object is Germany's last chance. But if the object is attained, it means for us and the Allies only a longer war.
