Next time you are in a gathering of women note the different conditions apparent in complexion. You will see some filled with blackheads, will see some filled with blackheads, some dry and rough, some smooth and greasy, some smeared with rouge, some streaked with heavy metalic powders and once in a while you will see one that is a demonstration of intelligence from every point of view. The color is rosy, the skin is clear and smooth, the pores are small and open, the powder does not show on the firm vigorous skin. Every woman can have a good complexion if she will only use a little discretion. If you would acquire real beauty, the beauty of perfect health. beauty, the beauty of perfect health; peauty, the beauty of perfect health, you must replenish your worn-out nerves with lecithin, Nature's own nerve restorer, and put into your blood the invigorating iron which Nature intended it to have for health. In most of the modern foods these and other vitalizing elements have been largely eliminated. Yet to be cealthy and beautiful the system must have them. They are found in Bio-feren, not only in proper proportions to restore weakened vitality but in such force as the swe witality but in such form as the system can best assimilate them.

A treatment of leethin and iron peptonate as combined in Bio-feren increases the appetite, aids nutrition and invigorates the patient.

Registration certificates will be supplied only by a youth's local board after his registration card has been filed there. To safeguard himself, each registrant is advised by local draft boards to enclose a stamped-addressed envelope with his registration card to insure his receiving the certificate.

Citizens of the United States or those who have declared their intention of becoming citizens who, because of temporary absence from it, do not register on Wednesday, are required to register within five days after they return to its territorial limits.

Heavy penalties are provided for youths who fail to register on Wednesday. Excuses will be of no avail. Each person failing to register will be subject to imprisonment and the loss of valuable civil rights and, in addition, will be immediately inducted into the United States service if he be properly qualified physically.

GUARD SHIP BIG MEETING FOR EMPLOYES

First Get-Together Meeting Held at Local Steel Plant This Afternoon

The first of a series of "get to-gether" meetings to be held at the local steel plant for the purpose of encouraging co-operation of em-ployes was held in the 44-inch mill

coast, it was said.

The U-boats were sent down almost within sight of the French to coast, it was said.

The destroyer was one of a number convoying American transports. The first submarine was sighted some distance off, members of the ship's crew said, and the destroyer gave chase, dropping depth charges near where the U-boat had submerged.

There were evidences of a hit, it was claimed.

As the destroyer was returning to its position in the convoy, another submarine came up near a transport, the account said, and the troopship opened fire, while the destroyer dashed in. The submarine quickly submerged, but the destroyer let go another depth charge, with resulting evidence that the U-boat had been hit.

Hencuraging co-operation of employes was held in the 44-inch mill this afternoon. To-day's meeting at the day force and the syclock this evening was for the benefit of 6,000 employes of the local of the day force.

fall election with every promise of victory.

Clear of Entanglements

"While all the results of the primaries are not as some good people had hoped they would be, yet the field is now cleared and the sucsuccful nominees in all parties have been named and the league is in the field with candidates for governor down pledged to ratification. We are receiving congratulations from all sides that during the primary contest the league kept itself clear from all factional, partisan and entangling alliances.

"The Anti-Saloon League expects to prosecute even a more vigorous campaign at the fall election in the support of candidates pledged for ratilication that it did in the spring primaries. Our slogan now is 'Beat Bonniwell.' We therefore call upon all true and loyal friends of our cause to get ready for action and swing into line for a final and decisive victory for ratification.

"Since it is a foregone conclusion that thirty-six states of the union will ratify the prohibition amendment early in 1919, it is hardly reasonable to conclude that any large number of loyal patriotic citizens of our Commonwealth will go on record as refusing to join the large majority of the states which will ratify the amendment that seeks the highest good of the greatest number of homes and people.

"The Pennsylvania League, under the direction of its appointed authorities, will conduct a campaign in every county and district in the state where it is necessary, in the interest of candidates who are pledged.

thorities, will conduct a campaign in every county and district in the state where it is necessary, in the interest of candidates who are pledged to ratification, and will do all in its power to place the Keystone state among the thirty-six which will ratify the amendment at the next meeting of the Legislature and which will also enact such laws as will make the amendment effective."

Support Sproul
"Support Sproul and defeat Bonniwell," was the slogan of the Rev. Dr. John Watchorn, chairman of, the Cooperative Temperance Committee of the Anti-Saloon League and of the Dry Federation of Pennsylvania, in an address yesterday afternoon before the Men's Bible Union of the Erie Avenue Methodist Episcopal Church, Philadelphia. Dr. Watchorn said that an independent movement in the Republican party should not be tolerated, as the only way to secure the ratification of the national prohibition amendment is for all the temperance forces in the state to rally behind William C. Sproul, the Republican gubernatorial nomine.
