The old road, a highway which has been in use for over a century. This project dates back to the days of Governor John K. Tener. When the highways were committed to E. M. Bigelow under the Sprout law of the Governor and Commissioner Bigelow started on a ride up the river. They found the road atrocious and Mr. Bigelow suggested that the railroad join in an improvement. The canal was right at the edge of the river and then came a mountain. The railroad people were not quite sure what they could do and Mr. Bigelow suggested that the road be built on the bank between the canal and the Susquehanna. It has cost many thousands of dollars, especially for filling, but the highway is beside a mile-wide stream and connects the Clark's Ferry bridge over the Susquehanna and Junata with the Susquehanna Trail and forms a link in both that highway and the William Penn. North of Clark's Ferry the State Highway Department is improving the road clear up to Millersburg.

Red Cross Asks Women to Enroll as Nurses

A call for women to enroll as nurses was issued by the publicity department of the Steelton Red Cross chapter. A statement follows:

"Next to the enlistment of soldiers and sailors, there is not a greater need than the enrollment of nurses, upon them devolves the health, morale and lives of the men who are fighting for us. Registered nurses are called upon to enroll and graduate nurses not yet registered to make themselves eligible for enrollment."

"A direct appeal is made to graduates of women's colleges and high schools to enroll immediately as student nurses in hospitals and especially in the Army school of nursing recently established by the Army in connection with military hospitals. This Army school of nursing offers women the opportunity of completing the course of training and enables them to become graduate nurses."

Anyone interested in this work for our soldiers and sailors come to headquarters, 112 Harrisburg street, and register.

Mt. Zion Baptist Church Debt and Burns Mortgage

STOP INDIGESTION WITH BI-NESIA

Avoid Deadenng Drugs and Artificial Digestants

Pain in the stomach after eating, indigestion, dyspepsia, flatulency, etc., are almost invariably due to acidity and food fermentation. To attempt to cure the trouble by using digestive powders and pills or deadening drugs is like trying to relieve a wound from splinters by applying ointment without first removing the glass. In each case the cause remains and the trouble gets worse. The common sense thing to do when your stomach hurts is to remove the acid and stop the fermentation by means of a simple antacid or neutralizer such as Bi-Nesia, which can be obtained of Geo. W. Gottling, any other good druggist in either powder or tablet form. A teaspoonful of Bi-Nesia powder or two or three of the tablets taken in half a glass of hot water after eating instantly neutralizes the acid, stops food fermentation, and thus enables the most confining and need a flushing occasionally. The meals without the slightest pain or inconvenience. Try this simple plan and don't forget that you ever had a stomach. The trial costs nothing if it fails, for each package Bi-Nesia contains a binding guarantee of satisfaction or money back, and your druggist, a man you personally know, stands back of that guarantee.—Advertisement.

IF BACK HURTS TAKE SALTS TO FLUSH KIDNEYS

Says Backache is sure sign you have been eating too much meat

Uric Acid in meat clogs Kidneys and irritates the bladder

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, indigestion and all sorts of bladder disorders. You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders. Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.
