

DRIVE FOR WAR NURSES IS TO HAVE IMPETUS

Mrs. Lyman D. Gilbert Will Emphasize Opportunity at Hospital Meeting

Further preparations were made today for the meeting of graduate nurses at the Harrisburg Hospital tomorrow evening. This meeting, scheduled for 8:30 o'clock, is planned to give impetus to the intensive drive being waged here under the auspices of the Harrisburg Red Cross Chapter to recruit twenty-five graduate nurses from Harrisburg and vicinity to help fill the call for 25,000 nurses asked from the nation for service "over there."

Announcements were issued from the headquarters of the Harrisburg Society this morning to the effect that Mrs. Lyman D. Gilbert, chairman of the local chapter, will deliver a short talk at to-morrow evening's meeting. She will emphasize the opportunity offered graduate nurses in the Red Cross service and will endeavor to illustrate the nation's great need for them.

"Softens Corns and Callouses Like Water Softens Soap"

"Refreshing to the feet as mountain air to the lungs. Aches, swellings, soreness, tenderness, excessive perspiration, etc., soon had to go," says former sufferer from foot troubles, who repeats a specialist's advice.

After trying caustic liquids, cutting, plasters, etc., without obtaining any relief, I finally consulted a well-known specialist. He explained that corns and callouses are simply hardened, partly dead skin formed by shoe pressure, clogged pores and poor circulation due to feet being the farthest extremities to which the heart must pump blood. Such growths are without nerves or blood vessels themselves, but they cause acute misery by pressing on and irritating the extremely sensitive nerve tissues beneath. To refresh the feet, remove callouses and take corns out, roots and all, it is only necessary to rest them in hot salted water. This has no effect whatever on the structure of normal, healthy skin, but it cuts its coat in the waxy substance from clogged pores, also the oil from

ing, which is open. Admission is by tickets, which are free, and being distributed by the Chamber of Commerce.

William Smedley, secretary of the Retail Merchants' Association of Pennsylvania, will address the meeting.

The new mercantile administration desires to have the merchants co-operate voluntarily, and for that reason the merchants at the meeting Monday night will advance their opinions on regulations best suited for Dauphin county's needs. The regulations to be formulated for Dauphin county have not yet been decided, so that free discussion of the matter will be allowed Monday evening before they are finally promulgated by the mercantile administrator.

The state administrator has authority to enforce the regulations the United States government has ordered in effect, and for that reason all the merchants will be affected by the addresses and discussion Monday evening.

Some of the regulations of the federal director of commercial economy, the following rules and regulations have been formulated and will be followed by the merchants in Philadelphia.

Not more than one delivery will be made per day.

A charge of five cents will be made on each order placed.

No goods may be returned after they are opened unless they are spoiled or damaged.

A man will be appointed in each county as a representative of the state director of commercial economy.

HUNS NO MATCH FOR THE YANKEES

trees of Belleau wood, but the marines pushed their way through it.

Towns Are Fired

Out in the open field artillery officers with glasses were directing the supporting fire while on the roof of a nearby farm house a signal man wig-wagged with his red and white flag. On all sides the guns were flashing, some of them directed right out in the valley, only a mile away, the village of Buzin was in flames. As the correspondent watched the scene, the clouds of white shrapnel smoke over the village of Torcy also became brownish and flames appeared in that town.

The artillery fire that preceded the attack lasted an hour and was of especial intensity for five minutes preceding the time when the marines went over the top. French and American batteries both took part in the firing, putting down a rolling barrage and then shifting to the roads behind the German lines.

Forested Hun Attack

It appears that the marines in going to the aid of the British in the attack on the Germans had planned. It was to have been carried out by the Prussians who had been put into the line for that purpose, and was to have taken place either today or to-morrow. These men had relieved the Prussian guard division which was literally chewed up in the fighting of the last day or two.

The morale of the men is wonderful. They are willing to attempt anything and are talking with pride of the heavy losses they inflicted upon the Germans in their attack this morning, while all the early reports indicated that the afternoon attack had been even more costly to the enemy.

Men Ask For No Rest

This latter attack was undertaken largely because of the splendid show the marines made in the morning, coupled with the discovery that the morale of the Germans in the opposite position was low, which made the going easier for the fiery soldiers of the marine corps. The advance was carried out by the same men who attacked in the morning and who had had no rest. They asked nothing, however, but plenty of ammunition and hardly ate the food that was brought up to them so absorbed were they in the task of chasing the enemy as far as possible.

No one who saw the marines in action to-day did not thoroughly agree with the exclamation of their commander, himself an Army man, when he said: "I just wish I had an army corps of 'em here."

CROWDER PLANS TO PUT 500,000 MORE IN CLASS 1

Wires Governors to Probe Small Registrations in Top Rank

By Associated Press

Washington, June 7.—A general revision of classifications under the selective service act was started today by Provost Marshal-General Crowder, when he telegraphed to the Governors of all the states ordering investigations to determine the reason for the small number of registrants in Class 1 in some localities.

The lists of some boards show an average far below the national average of 28.7 per cent registrants in Class 1. Some boards even have fallen as low as ten per cent.

Thousands of men in Class 4 should be put in Classes 1 and 2, the Provost Marshal said. The instructions also ordered investigations to determine if any men have been erroneously put in the upper classes when they should have been placed in those lower down.

It is expected that the rearrangement will bring into Class 1 more than 500,000 men.

Cases where registrants were married after passage of the draft act will be carefully considered, and, if evidence warrants classification in Class 1, boards will proceed to reclassify them. Married men whose wives have sustaining incomes probably will be reclassified.

General Crowder announced to-day that the class of 1918 registrants will not be allowed to enlist in the Navy or Marine Corps and that no voluntary inductions will be granted until order and serial numbers have been assigned. After assigned, registrants may enlist if they obtain certificates

Alkali in Soap Bad For the Hair

Soap should be used very carefully. If you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is just ordinary mulsified coconut oil (which is pure and greaseless), and is better than the most expensive soap or anything else you can use.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get mulsified coconut oil at any pharmacy. It's very cheap, and a few ounces will supply every member of the family for months.

Godcharles, deputy secretary of the commonwealth, who has passed all examinations for a captaincy in the aviation corps and is now awaiting orders from the War Department to report for duty with one of the new units. Mr. Godcharles is a well-known athlete and famous as a football referee. He is one of the best shots in the United States and has had some military experience. He is an exceptionally effective patriotic speaker.

The Municipal Band will render patriotic services during the evening and Park Commissioner E. Z. Gross chairman of the recruiting committee, who has a son with the American forces in France, will preside. The meeting to-night is to be held as a part of the recruiting drive in the Harrisburg district and has been arranged by the club at the request of the local recruiting office.

MOTHER GETS WORD OF SON'S PROMOTION

Mrs. Sarah Fitzpatrick, 236 Emerald street, received word to-day that her son, James Fitzpatrick, has been commissioned a second lieutenant. Graduating from the Wharton Extension School last year, Fitzpatrick enlisted in the Army and was sent to Columbus Barracks. From this place he was assigned to the Officers Training Camp at Camp Custer, Michigan, in January. He has now been sent to Camp Gordon, Georgia. He was graduated from Tech High in 1913.

PRIVATE AMBULANCE PHONES

Doctor said, "Bio-feren had done wonders for her."

Case 1724—School teacher; Residence—Kentucky; severe operation left her weak, anemic, nervous; low vitality. Physician recommended Bio-feren. Two weeks' treatment showed remarkable improvement. Doctor reported, "Bio-feren had done wonders for her."

Another case—Pennsylvanian, reports: "I have taken about one-half of the Bio-feren pellets and must confess that I feel like new."

A Kentuckian woman says: "I have taken Bio-feren regularly and feel much benefited. I can use my arms much better. However, can not get my hands to my head sufficiently to comb my hair, but I feel that I will soon be able to do that."

You want the vigorous health and ruddy beauty that is dependent on strength, nerves and red blood. Everybody does. Read those reports above, again. You, too, if you are dragged down in health and strength because of overwork, worry, nerves, and similar causes can rebuild your health and strength with Bio-feren. It is not a stimulant. It is a builder—a builder of better health.

Bio-feren contains some of the best ingredients known to the medical world, and is indicated for the treatment of run-down conditions due to overwork, worry, anemia, melancholia, nervous debility, debility following infectious diseases, convalescence from acute fevers, etc.

There is no secret nor mystery about Bio-feren. Every package shows the elements it contains. Ask your physician about it, or have him write and we will send him complete formula.
