24 BILLIONS PUT AS YEARLY WAR COST BY M'ADOO

Congress Asked to Double Taxes and Get Four Billion For Next Fiscal Year

Washington, June 7 .- Secretary of the Treasury McAdoo yesterday sub mitted to Congress a detailed statement of the necessity for additional revenue legislation and outlined some of the administration recom-

mendations for levying new taxes. He asked for an \$8,000,000,000 revenue bill, which will anctude ap-

revenue bill, which will mctude approximately \$4,000,000,000 being derived from existing tax laws—an increase in the amount of 100 per cent. on the purse strings of the mation.

Secretary McAdoo estimated that expenditures of the government during the fiscal year beginning July 1. will be \$24,000,000,000, which would leave \$16,000,000,000 to be raised by Libery Loans during the twelve months ending June 30, 1919. This is in ratio of one-third in taxes to two-thirds in bonds and is a concession to congressional leaders who objected to the original administration proposal for a 40-60 basis.

After citing his recommendation for a minimum of \$8,000,000,000 to be raised through taxes, Secretary McAdoo suggested, in a letter to Representative Kitchin, chairman of the House Committee on Ways and Means, the following measures of taxation:

"That a real war-profits tax at a

House Committee on Ways and Means, the following measures of taxation:

"That a real war-profits tax at a high rate be levied upon all war profits. This tax should be superimposed upon the existing excess-profits tax in such a way that the taxpayer should be required to pay whichever tax is the greater. The existing excess-profits tax should be amended in certain important particulars, so as to remove inequalities.

"That there should be a substantial increase in the amount of normal income tax upon socalled unearned incomes. Under existing law earned incomes above certain exemptions are taxed 4 per cent. as an income tax and 8 per cent. as an income tax, making a total of 12 per cent. while unearned incomes, derived from securities and the like, are taxed only 4 per cent. The 8 per cent. tax should be recognized as an income tax, and the rate of 12 per cent. (4 per cent. normal and 8 per cent. excess-profits) should be retained in respect to earned incomes, while a higher rate than 12 per cent. should be imposed on unearned incomes.

"That heavy taxation be imposed

Iron in the Blood Stirs to War, Envoy Says to London Club

London. - Charles E. Russell, friend of President Wilson, who recently arrived in England to take charge of the European branch in London of the Committee of Public Information of the United States, was entertained by the American uncheon Club at the Savoy Hotel.

Mr. Russell, who is well known as publicist and economist, said the a publicist and economist, said the spirit of America was now roused and determined. In traveling about the United States and addressing patriotic meeings he saw the average American mind go through various stages. At mrst they had the idea in America that they would not have to enter the firing line, and that the war would be won before that would be necessary. Ultimately it became clear that American resources of all kinds would be tested to the utmost. He saw the American regiment march through London last Saturday, and the faces he saw there reflected the face of America, the determination of America to be in to the end.

The American form of government.

the end.

The American form of government did not make for war. When Germany made war there was only one mind to be made efficient, but in America there were 110,000,000 minds to be educated to war. The belief in peace in the United States had been more than a preference for peace. It had been a religion. In this supreme crisis of the world's affairs, if it was true that an individual had no right to think of himself, it was also true that a nation. vidual had no right to think of him-self, it was also true that a nation had no right to think of itself. It was a cause that was beyond any national cause. It was a struggle between two great ideals of life that the same world. Before the end of the year he hoped they would have 10,000,000 men in arms. They ac-cepted the fact that God in His wis-dom had appointed the English-speaking race to restore liberty to speaking race to restore liberty the world. Americans were not go
