800 Pairs Silk Gloves

Special 3-Day Sale

TUESDAY, WEDNESDAY and THURSDAY

June 18th, 19th and 20th

39c Pair

These gloves are extraordinary values at this price—in fact, so low in price that there should be no hesitancy in selecting a number of pairs during this unusual opportunity.

They are Milanese and tricot silk gloves—2-clasp and 16-button lengths, double finger tips, embroidered and Paris point backs in white self, white with black, black self and black with white—sizes 5 1/2 to 9—made by the most famous makers whose names we are not permitted to divulge, as the gloves are not firsts, but imperfections so slight that you would not notice them unless by critical inspection.

Come in the morning, if possible, as there is no telling how long these exceptional values will last.

Another lot of heavy silk gloves with double finger tips, 2-clasp Milanese silk gloves in white, black, white with black, black with white, gray, tan and Navy blue—discontinued numbers—every size—5 1/2 to 8 1/2—but not every size in every style and color—very special at

59c and 89c

For having the largest variety and the best quality in the most famous makes of silk and kid gloves, Bowman's glove department is unequalled in this section of state. Your own judgment will tell you this on inspection. Because of the large quantities we sell, we naturally get in first on any special concessions the glove manufacturers have to make. This sale is one of those opportunities, and you should take advantage of it.

Crowder Urges Senate to Broaden Age Limit; 3,000,000 Men by Aug. 1

Washington, June 17.—Provost Marshal General Crowder has urged upon the Senate military affairs committee the necessity for amending the draft law to broaden the age limit on the ground that at the present rate of drafting men Class I would be exhausted early next year. General Crowder told the committee on Saturday that the American Army would number 3,000,000 on August 1 this year. Of these 2,000,000 will have been furnished by the draft and the others through enlistments. He said that waste, due to the larger part American forces would play on the western front, all probably would require heavy drafts in the first six months of 1919. He gave the committee figures of the number of men the War Department intended to call into service between August 1 and December 31.
