ITALIAN LINE HOLDS WELL DESPITE TERRIFIC ASSAULTS BY AUSTRIANS BOCHES FAIL IN ATTACK ON RHEIMS Draft Boards Ordered to Let Down Bars on Exami-

ENEMY DISMAYED BY ITS SLOW PROGRESS ALONG PIAVE RIVER

Gains of Austrian Armies Not Commensurate With Expenditures of Blood and Powder or With the Preparations Made For the Con-

Fierce attacks are being made by the Austrians to overcome the Italian resistance along the Piave, but the defensive line still holds. Apparently the enemy sees his only hope of success in enlarging his gains across the Piave, having been given a disastrous check in the mountains

from west of Asiago to the Piave.

In the mountains the Austrian have been generally on the defensive since they were checked and then thrown back over the terrain gained Saturday in the first day of the offensive. The French and British around Asiago and under a heav enemy bombardment and the French Tuesday repulsed a strong local Austrian effort. Along the Val Sugana and against the Bastion of Monte Grappa the enemy holds further attacks in abeyance.

Situation Not Clear

Situation Not Clear

Along the nearly thirty-mile Plave line the situation has not improved areatly from an allied viewpoint, although the Austrians have been defeated at most points in efforts to enlarge their gains. Where and in what force the enemy has crossed the river and how far he has progressed into the Venetian plain are not outlined clearly, but apparently the Italians have given most ground on the north around Montello and on the south of Capo Sile.

From their foothold on Montello and on the south of Capo Sile.

From their foothold on Montello and my competent petween Bassano and Treviso, the Austrians are making violent attempts to drive the Italians are fighting just as determinedly to keep the enemy close to the riverbank. The fighting the past two days has been favorable to the Italians. In the center, from Masgerada to Fossalta, the Austrians are being held well in check and have been mable to make any progress across the Plave, despite repeated attempts.

Enemy Gains Small

Seemingly the Austrians have pushed back the Italians several miles between Fossalta and Capo Sile and along the Fossetta canal, which runs southwest toward Venice. Capo Sile is in the lowlands along the Afriatic, but if the enemy reaches the Fossetta canal to the north he would be on drier ground and better able to push toward Mestre, and outflank the line northward along the Afriatic, but if the enemy reaches the Fossetta canal to the north he would be on drier ground and better able to push toward Mestre, and outflank the line northward along the Afriatic, but if the enemy reaches the Fossetta canal to the north he would be on drier ground and better able to push toward Venice. Attack Expected

The front of the new German attack is the semicircle drawn by the enemy about the city of Rheims in the recent offensive on the Aisne front. The Rheims region comprised the left flank of the German attack. Ground, was given by the French on both sides of the cathedral city, but the town itself and the nearby protecting forts were held against the German onslaught and have since remained in French possession.

Rheims, however, was hemmed in on three sides by the enemy, and it has been considered only a question of time when the Germans would make a concerted movement to oust its defenders. The front of the present attack, from Vrigny, west of the city, to La Pompelle, around the semicircle to the east, is approximately fourteen miles.

OTTOMANS SACK MAY BE WAR ACT

Outrage Committed by Turks Over Protest of Spanish

Envoy of America Washington, June 19 .- Sacking of

the American hospital at Tabriz, Persia, and seizure of the American and British consulates there by invading Turkish troops was reported to the State Department to-day by the American Minister at Teheran.

May Be Act of War If the report as it reached the Minister is officially confirmed, the outrages may be considered an act of war and settle the long-pending question of whether the Ottoman allies of Germany should be formally listed among America's enemies. According to to-day's dispatch, the Turks sacked the hospital over the protest of the Spanish consul, in charge as representative of American interests, and in defiance of the Spanish flag flying over the building.

in 50 Years; Wheat Good

The farmers of Dauphin county are busy harvesting the biggest hay crop they have ever grown, according to H. G. Niesley, county farmagent. The labor question is serious, but the farmers will get their hay in if they must work twenty hours a day, the farm agent affirmed. It is the best hay crop in fifty years, in the opinion of Mr. Niesley,

The wheat crop is going to surpass expectations, Mr. Niesley said.
The wheat has flourished remarkably during the last four weeks. Seventeen bushels will be the average per acre, and some acres will yield twenty-five to thirty bushels.

The Schedule

Householders are requested to conform to the following schedule, and restaurants are requisted to observe its regulations:
Roast beef, whether hot or coid, to be served only on Monday at midday meal.
Stewed, boiled or beef hash, on Wednesday and Saturday at midday meal.
By-products of beef, such as ox alis, livers, tongues, sweetbreads, hearts, kidneys, brains, and tripe, may be served at any time.
The voluntary observance of these rules by each householders.
